

2019

Eugene Hwang successfully defended his thesis. Congratulations, Eugene!

Congratulations to Ji Su Song on the publication of her paper titled "Self-Illumination of Carbon Dots through Protein Conjugation" in *Scientific Reports - Nature* (Vol. 9, 13796, 2019)

Congratulations to Songlin Yang and Wai Hei Tse on the publication of their paper titled "Deposition of Antibody Modified Upconversion Nanoparticles on Glass by a Laser-Assisted Method to Improve the Performance of Cell Culture", *Nanoscale Research Letters*, 14:101-113 (2019).

Congratulations to Songlin Yang on the publication of his paper titled "Deposition of YBCO nanoparticles on graphene nanosheets by using matrix-assisted pulsed laser evaporation" in *Optics & Laser Technology*, 09, 465-469 (2019).

Congratulations to Wai Hei Tse, Longyi Chen on the publication of the paper titled "Development of Biocompatible NaGdF₄: Er³⁺, Yb³⁺ Upconversion Nanoparticles Used as Contrast Agents for Bio-imaging", *Canadian Journal of Chemical Engineering*, 97, 2678-2684 (2019).
