Description
This course introduces students to chemical and biochemical processes, their development and evolution. Process analysis and design considering safety, environment and economics will be reviewed. Integration of safety from theoretical and practical points will be presented with specific examples of chemical process design. Students will be also provided with detailed review and analysis of major accidents in chemical industry and preventive measures.

Prerequisites
CBE 2220A/B, CBE 2221A/B, CBE 2224A/B, or GPE 2218A/B, ES1050.

Unless you have either the prerequisites for this course or written special permission from your Dean to enroll in it, you will be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

Corequisites
None.

Antirequisites
The former CBE 3397.

Contact Hours
2 lecture hours, 2 tutorial hours, 0.5 course.

Extra Information
Lecture and tutorial hours to run from Jan.-April.

Instructors
Prof. A. Prakash (TEB 441) Telephone: 519-661-2111 ext: 88528 email: aprakas2@uwo.ca

Undergraduate Assistant
(TEB 477) Telephone: 519-661-2111 ext: 82131 email: cbeundergraduate@uwo.ca
**Required Text**

**Reference Texts**

**Course Notes**
Summary course notes and presentations (complementary to the textbook materials) will be available at course website.

**Units**
SI units will be used in reports with British Engineering units between brackets.

**General Learning Objectives**

<table>
<thead>
<tr>
<th>A knowledge base for engineering</th>
<th>Individual and teamwork</th>
<th>Economics and project management</th>
<th>B</th>
</tr>

<td>Ethics and equity</td>
<td>B</td>
<td>n.e.: not evaluated</td>
</tr>
</tbody>
</table>

**General Learning Objectives (cont’d)**

- Become familiar with chemical processes, their configurations and graphical representations and history of process development.
- Develop understanding of safety and hazards and environmental issues in plant design and operations.
- Apply engineering judgment in approximate design calculations by hand.
- Identify and formulate a process area of interest to the chemical, biochemical or the parachemical industries.
• Search the academic and technical literatures for information on the selected process area.
• Present in formal reports, a review of the up-to-date state of the art for the selected process area.

**Specific Learning Objectives**

**Introduction to Chemical Industry**
At the end of this section, students should become familiar with:
• Different sectors in chemical industry.
• Chemical industry in Canada.
• World-wide trends in chemical industry.

**Graphical Representation of Chemical Processes**
At the end of this section, students should become familiar with:
• Different types of flow diagrams used for communication in chemical industry.
• General rules followed and equipment symbols used in flow sheet drawing.
• Use of software in flow sheet drawing.

**Literature Search and Report Writing**
At the end of this section, students should be able to:
• Conduct on-line literature search on selected topics.
• Present a written report based on an up-to-date review of the selected process area.

**Process Safety, Loss Prevention and Risk Management**
At the end of this section, students should become familiar with:
• Types of hazards in chemical process industry.
• Fire, explosion, toxic release.
• Construction of flammability diagram and its advantages in preventing fire and explosion
• Fire, explosion, toxic release.
• Design to prevent fire and explosion.
• Relief and relief sizing.
• Process safety management systems used to prevent process-related injuries and incidents.
• Major accidents and lessons learned.
• Inherent safety in plant design.
• Process risk assessment, reduction and management.
• Responsible care and human factors in plant design.

**Standard equipment selection and sizing:**
Following common equipment type will be discussed to develop appreciation for practical design issues:
• Vapor-Liquid separators
• Heat exchangers
• Rotary equipment
  o Pumps and piping
  o Fans, blowers, compressors
Evaluation
The final course mark will be determined as follows:
1. Report on Literature Review-Part 1 10%
3. Assignments and Quizzes 15% (TA)
4. Final Examination 50% (instructor)

Notes
1) Students must pass the final report with a minimum of 60% and the final exam with a minimum of 50% to pass this course. Students who fail the final report (<60%) will be assigned 48% if the aggregate mark is higher than 50%, or the examination mark, whichever is less.
2) Assignments are to be handed in to the CBE 3319B locker in TEB (# C451) on the specified due date provided by the instructor.
3) The deadline for Report on Literature Review will be announced

Repeating All Components of the Course
In accordance with Senate and Faculty Policy, students who have failed an Engineering course (i.e. <50%) must repeat all components of the course. No special permissions will be granted enabling a student to retain laboratory, assignment or test marks from previous years. Previously completed assignments and laboratories cannot be resubmitted for grading by the student in subsequent years.

Use of English
In accordance with Senate and Faculty Policy, students may be penalized up to 10% of the marks on all assignments, tests, and examinations for the improper use of English. Additionally, poorly written work with the exception of the final examination may be returned without grading. If resubmission of the work is permitted, it may be graded with marks deducted for poor English and/or late submission.

Attendance
Attendance in lectures, tutorials and laboratories is mandatory. Any student who, in the opinion of the instructor, is absent too frequently from class or laboratory periods in any course, will be reported to the Dean (after due warning has been given). On the recommendation of the Department concerned, and with the permission of the Dean, the student will be debarred from taking the regular examination in the course.

Cheating
University policy states that cheating is a scholastic offence. The commission of a scholastic offence is attended by academic penalties, which might include expulsion from the program. If you are caught cheating, there will be no second warning (see Scholastic Offence Policy in the Western Academic Calendar).
**Plagiarism**
Students must write their essays and assignments in their own words. Whenever students take an idea, or a passage from another author, they must acknowledge their debt both by using quotation marks where appropriate and by proper referencing such as footnotes or citations. Plagiarism is a major academic offence (see Scholastic Offence Policy in the Western Academic Calendar).

The University of Western Ontario has software for plagiarism checking. Students may be required to submit their work in electronic form for plagiarism checking.

**Conduct**
Students are expected to arrive at lectures on time, and to conduct themselves during class in a professional and respectful manner that is not disruptive to others.

**Sickness and Other Problems**
Students should immediately consult with the instructor or Department Chair if they have any problems that could affect their performance in the course. Where appropriate, the problems should be documented. The student should seek advice from the Instructor or Department Chair regarding how best to deal with the problem. Failure to notify the Instructor or Department Chair immediately (or as soon as possible thereafter) will have a negative effect on any appeal.

Please contact the course instructor if you require material in an alternate format or if any other arrangements can make this course more accessible to you. You may also wish to contact Services for Students with Disabilities (SSD) at (519) 661-2111 x82147 for any specific question regarding an accommodation.

**Notices**
Students are responsible for regularly checking their Western email and notices posted on Instructors’ doors.

**Consultation**
Students are encouraged to discuss problems with their teaching assistant and/or instructors in tutorial sessions. Office hours will be arranged for the students to see the instructor and teaching assistants. Other individual consultations can be arranged by appointment with the appropriate instructor.

**Accreditation (AU) Breakdown**
Engineering Science  = 45%
Engineering Design  = 55%
INSTRUCTIONS FOR STUDENTS UNABLE TO WRITE TESTS OR EXAMINATIONS OR SUBMIT ASSIGNMENTS AS SCHEDULED

IF, ON MEDICAL OR COMPASSIONATE GROUNDS, YOU ARE UNABLE TO WRITE TERM TESTS OR FINAL EXAMINATIONS OR COMPLETE COURSE WORK BY THE DUE DATE, YOU SHOULD FOLLOW THE INSTRUCTIONS LISTED BELOW. YOU SHOULD UNDERSTAND THAT ACADEMIC ACCOMMODATION WILL NOT BE GRANTED AUTOMATICALLY ON REQUEST. YOU MUST DEMONSTRATE TO YOUR DEPARTMENT (OR THE UNDERGRADUATE SERVICES OFFICE IF YOU ARE IN FIRST YEAR) THAT THERE ARE COMPELLING MEDICAL OR COMPASSIONATE GROUNDS THAT CAN BE DOCUMENTED BEFORE ACADEMIC ACCOMMODATION WILL BE CONSIDERED. DIFFERENT REGULATIONS APPLY TO TERM TESTS, FINAL EXAMINATIONS AND LATE ASSIGNMENTS. READ THE INSTRUCTIONS CAREFULLY. (SEE THE 2014 UWO ACADEMIC CALENDAR).

A. GENERAL REGULATIONS & PROCEDURES

1. Check the course outline to see if the instructor has a policy for missed tests, examinations, late assignments or attendance.

2. Bring your request for academic accommodation to the attention of the chair of your (or the Undergraduate Services office if you are in first year) PRIOR to the scheduled time of the test or final examination or due date of the assignment. If you are unable to contact the relevant person, leave a message with the appropriate department (or with the Undergraduate Services Office if you are in first year). The address, telephone and fax numbers are given at the end of these instructions. Documentation must be provided as soon as possible.

3. If you decide to write a test or an examination you should be prepared to accept the mark you earn. Rewriting tests or examinations or having the value of a test or examination reweighted on a retroactive basis is not permitted.

B. TERM TESTS

1. If you are unable to write a term test, inform your instructor and the Chair of your Department (or the Undergraduate Services Office if you are in first year) PRIOR to the scheduled date of the test. If the instructor is not available, leave a message for him/her at the department office and inform the Chair of the Department (or the Undergraduate Services Office if you are in first year).

2. Be prepared to provide supporting documentation to the Chair and the Undergraduate Services Office (see next page for information on documentation).

3. Discuss with the instructor if and when the test can be rescheduled. N.B. The approval of the Chair (or the Undergraduate Services Office if you are in first year) is required when rescheduling term tests.

C. FINAL EXAMINATIONS

1. If you are unable to write a final examination, contact the Undergraduate Services Office PRIOR TO THE SCHEDULED EXAMINATION TIME to request permission to write a Special Final Examination. If no one is available in the Undergraduate Services Office, leave a message clearly stating your name & student number (please spell your full name).

2. Be prepared to provide the Undergraduate Services Office with supporting documentation (see next page for information on documentation) the next day, or as soon as possible (in cases where students are hospitalized). The following circumstances are not considered grounds for missing a final examination or requesting special examinations: common cold, sleeping in, misreading timetable and travel arrangements.

3. In order to receive permission to write a special examination, you must obtain the approval of the Chair of the Department and the Associate Dean and in order to apply you must sign a "Recommendation for a Special Examination Form" available in the Undergraduate Services Office. The Undergraduate Services Office will then notify the course instructor(s) and reschedule the examination on your behalf.

N.B. It is the student's responsibility to check the date, time and location of the special examination.

D. LATE ASSIGNMENTS

1. Advise the instructor if you are having problems completing the assignment on time (prior to the due date of the assignment).

2. Be prepared to provide documentation if requested by the instructor (see reverse side for information on documentation).

3. If you are granted an extension, establish a due date. The approval of the Chair of your Department (or the Associate Dean if you are in first year) is not required if assignments will be completed prior to the last day of classes.

4. i) Extensions beyond the end of classes must have the consent of the instructor, the department Chair and the Associate Dean. Documentation is mandatory.

ii) A Recommendation of Incomplete Form must be filled out indicating the work to be completed and the date by which it is due. This form must be signed by the student, the instructor, the department Chair and the Associate Dean.
E. **SHORT ABSENCES**

If you miss a class due to a minor illness or other problems, check your course outlines for information regarding attendance requirements and make sure you are not missing a test or assignment. Cover any readings and arrange to borrow notes from a classmate.

F. **EXTENDED ABSENCES**

If you are absent more than one week or if you get too far behind to catch up, you should consider reducing your workload by dropping one or more courses. (Note drop deadlines listed below). You may want to seek advice from the academic counsellor in your Department or Ms Karen Murray in the Undergraduate Services Office if you are in first year.

G. **DOCUMENTATION**

If you consulted an off-campus doctor or Student Health Services regarding your illness or personal problem, you must provide the doctor with a Student Medical Certificate to complete at the time of your visit and then bring it to the Department (or the Undergraduate Services Office if you are in first year). **This note must contain the following information:** severity of illness, effect on academic studies and duration of absence.

**In Case of Serious Illness of a Family Member:** Provide a Student Medical Certificate to your family member's physician to complete and bring it to the Department (or the Undergraduate Services Office if you are in first year).

**In Case of a Death:** Obtain a copy of the death certificate or the notice provided by the funeral director's office. You must include your relationship to the deceased and bring it to the Department (or the Undergraduate Services Office if you are in first year).

**For Other Extemuating Circumstances:** If you are not sure what documentation to provide, ask the Departmental Office (or the Undergraduate Services Office if you are in first year) for direction.

**Note:** Forged notes and certificates will be dealt with severely. To submit a forged document is a scholastic offence (see below).

H. **ACADEMIC CONCERNS**

You need to know if your instructors have a policy on late penalties, missed tests, etc. This information may be included on the course outlines. If not, ask your instructor(s).

You should also be aware of attendance requirements in some courses. You can be debarred from writing the final examination if your attendance is not satisfactory.

If you are in academic difficulty, check out the minimum requirements for progression in the calendar. If in doubt, see your academic counsellor.
