Faculty of Engineering
CBE 2214A – Engineering Thermodynamics
Course Outline 2017-2018

Description
Engineering Thermodynamics deals with the macroscopic relationship between the thermal energy (and its transfer referred to as heat) and work (useful energy) at steady-state and in uniform systems. The interconversion of thermal energy and work is materialized in heat engines, power plants, internal combustion engines, diesel engines, jet engines, and in the refrigeration units. The properties of the working fluid (water-steam, refrigerant, gas) will be studied. The first and the second laws of thermodynamics will be covered in detail. The first and second laws of thermodynamics will be studied in detail. The concepts of enthalpy and entropy in the closed and open systems and in the thermodynamic cycles will be described.

At the end of this course, the students will be able to analyze and design thermodynamic cycles using hand calculations.

Prerequisites
Applied Mathematics 1411
Unless you have either the requisites for this course or written special permission from your Dean to enroll in it, you will be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

Antirequisite
MME 2204A/B.

Contact Hours
3 lecture hours, 2 tutorial hours including a tour of the UWO Campus Power Plant, 0.5 course.

Instructor
Dr. S. Rohani (TEB 457) Telephone: 519-661-24116 ext: 84116 email: srohani@uwo.ca

Undergraduate Assistant
(TEB 477) Telephone: 519-661-2131 email: Joseph Cole Handsae, jhandsae@uwo.ca

Teaching Assistants
Yuanyi Wu, ywu547@uwo.ca
Stephanie Synnott, ssynnott@uwo.ca
Sara Banayan, sbanayan@uwo.ca
Pouya Zarrin, psoltan3@uwo.ca

Recommended Text
Laboratory
A tour of UWO Campus Power Plant, the boiler and chiller circuits, cooling towers, air compressors, and the diesel engine generators

Topics
Chapter 1: Introduction – basic concepts, systems and surroundings, properties of a system, a cycle, pressure and temperature
Chapter 2: Energy, heat, work, different forms of work, the first law of thermodynamics, heat engine efficiency, combustion efficiency, generator efficiency, motor efficiency, etc.
Chapter 3: Properties of pure substances, steam tables, quality index of water-steam mixture, ideal gas, compressibility factor, other equations of state
Chapter 4: Energy analysis of closed systems, the first law of thermodynamics, the polytropic process
Chapter 5: Energy and mass analysis of open systems (control volumes), steady state, steady flow systems, nozzles and diffusers, turbine, compressors and fans, throttling devices, mixing chambers, heat exchangers, pumps
Chapter 6: The second law of thermodynamics, heat engines, heat pumps, coefficient of performance, Kelvin-Plank statement of the second law, Clausius statement of the second law, the Carnot cycle, reverse Carnot cycle, Carnot efficiency
Chapter 7: Entropy, the Clausius inequality, isentropic process, entropy balance.
Chapter 8: The concept of exergy and the second law efficiency
Chapter 9: Gas power cycles, Carnot cycle, Otto cycle, diesel cycle
Chapter 10: Steam power cycles, limitations of the Carnot vapor cycle, the Rankine cycle, the reheat cycle
Chapter 11: Vapor compression refrigeration cycle, heat pump systems
Chapter 12: Thermodynamic property relations, the Maxwell relations, the reciprocity and the cyclic relations, the Clapeyron equation, the Clapeyron-Clausius equation, the Joule-Thompson coefficient.
Chapter 14: Gas-vapor mixtures and air conditioning, dew point, relative humidity, absolute humidity, wet-bulb, and dry-bulb temperatures, the psychrometric chart

General Learning Objectives

<table>
<thead>
<tr>
<th>A knowledge base for engineering</th>
<th>Individual and team work</th>
<th>Economics and project management</th>
</tr>
</thead>
<tbody>
<tr>
<td>Problem analysis</td>
<td>I</td>
<td>Communication skills</td>
</tr>
<tr>
<td>Investigation</td>
<td>I</td>
<td>Professionalism</td>
</tr>
<tr>
<td>Design</td>
<td>B</td>
<td>Impact of engineering on society and the environment</td>
</tr>
<tr>
<td>Use of engineering tools</td>
<td>I</td>
<td>Ethics and equity</td>
</tr>
</tbody>
</table>

Specific Learning Objectives
- To develop a conceptual understanding of the fundamental elements of classical thermodynamics
• To be able to identify the thermodynamic state of a substance under any given condition
• To develop knowledge of different equations of state for predicting PVT properties of pure substances.
• To develop an understanding of closed and open systems and how to account for the transfer of energy via work and heat
• To develop knowledge of the 1st and 2nd laws of thermodynamics. The students will be taught how to set up and solve real engineering problems.
• To gain an understanding of the corollaries of 1st and 2nd laws of thermodynamics

Evaluation
The final course mark will be determined as follows:
  Weekly Assignments (submit on Tuesdays by 4:00 pm to C463 locker in TEB 4th floor) 10%
  Two quizzes (one before Midterm, one after Midterm – dates will be announced) 10%
  Mid-term test (two hours, Monday October 23, 4:30 to 6:30 pm – Room SEB 2200, closed book, one formula sheet typed or hand-written on one side of a US letter size paper is allowed) 30 %
  Final Examination (closed book, one formula sheet typed or hand-written on both sides of a US letter size paper is allowed) 50 %

Only non-programmable pocket calculators will be permitted in the exams.

Note
1) Students must pass the final examination to pass this course. Students who fail the final examination will be assigned 48% if the aggregate mark is higher than 50% or the aggregate mark.
2) Assignments are to be handed in to the CBE 2214A locker (#463) in TEB on the specified due date provided by the instructor.

Repeating All Components of the Course
In accordance with Senate and Faculty Policy, students who have failed an Engineering course (i.e. <50%) must repeat all components of the course. No special permissions will be granted enabling a student to retain laboratory, assignment or test marks from previous years. Previously completed assignments and laboratories cannot be resubmitted for grading by the student in subsequent years.

Use of English
In accordance with Senate and Faculty Policy, students may be penalized up to 10% of the marks on all assignments, tests, and examinations for the improper use of English. Additionally, poorly written work with the exception of the final examination may be returned without grading. If resubmission of the work is permitted, it may be graded with marks deducted for poor English and/or late submission.

Attendance
Attendance in all lectures, tutorials and labs is mandatory. Any student who, in the opinion of the instructor, is absent too frequently from class or laboratory periods in any course, will be reported to the Dean (after due warning has been given). On the recommendation of the Department concerned, and with the permission of the Dean, the student will be debarred from taking the regular examination in the course.
Cheating
University policy states that cheating is a scholastic offence. The commission of a scholastic offence is attended by academic penalties, which might include expulsion from the program. If you are caught cheating, there will be no second warning (see Scholastic Offence Policy in the Western Academic Calendar).

Plagiarism
Students must write their essays and assignments in their own words. Whenever students take an idea or a passage from another author, they must acknowledge their debt both by using quotation marks where appropriate and by proper referencing such as footnotes or citations. Plagiarism is a major academic offence (see Scholastic Offence Policy in the Western Academic Calendar).

The University of Western Ontario has software for plagiarism checking. Students may be required to submit their work in electronic form for plagiarism checking.

Conduct
Students are expected to arrive at lectures on time, and to conduct themselves during class in a professional and respectful manner that is not disruptive to others.

Sickness and Other Problems
Students should immediately consult with the instructor or Department Chair if they have any problems that could affect their performance in the course. Where appropriate, the problems should be documented. The student should seek advice from the Instructor or Department Chair regarding how best to deal with the problem. Failure to notify the Instructor or Department Chair immediately (or as soon as possible thereafter) will have a negative effect on any appeal.

Please contact the course instructor if you require material in an alternate format or if any other arrangements can make this course more accessible to you. You may also wish to contact Services for Students with Disabilities (SSD) at 661-2111 x 82147 for any specific question regarding an accommodation.

Notice
Students are responsible for regularly checking their Western email and notices posted on Sakai (Owl).

Consultation
Students are encouraged to discuss problems with their teaching assistants and/or instructor in tutorial sessions. Office hours will be arranged for the students to see the teaching assistants. Other individual consultation can be arranged by appointment with the instructor.

Accreditation (AU) Breakdown
Engineering Science 75% (37.8 AUs)
Engineering Design 25% (12.6 AUs)

Aug/2017
INSTRUCTIONS FOR STUDENTS UNABLE TO WRITE TESTS OR EXAMINATIONS OR SUBMIT ASSIGNMENTS AS SCHEDULED

IF, ON MEDICAL OR COMPASSIONATE GROUNDS, YOU ARE UNABLE TO WRITE TERM TESTS OR FINAL EXAMINATIONS OR COMPLETE COURSE WORK BY THE DUE DATE, YOU SHOULD FOLLOW THE INSTRUCTIONS LISTED BELOW. YOU SHOULD UNDERSTAND THAT ACADEMIC RELIEF WILL NOT BE GRANTED AUTOMATICALLY ON REQUEST. YOU MUST DEMONSTRATE TO YOUR DEPARTMENT (OR THE UNDERGRADUATE SERVICES OFFICE) THAT THERE ARE COMPPELLING MEDICAL OR COMPASSIONATE GROUNDS THAT CAN BE DOCUMENTED BEFORE ACADEMIC RELIEF WILL BE CONSIDERED. DIFFERENT REGULATIONS APPLY TO TERM TESTS, FINAL EXAMINATIONS AND LATE ASSIGNMENTS. PLEASE READ THE INSTRUCTIONS CAREFULLY. (SEE THE 2017 UWO ACADEMIC CALENDAR).

A. GENERAL REGULATIONS & PROCEDURES

1. All first year students will report to the Undergraduate Services Office, SEB 2097, for all instances.

2. If you are an upper year student and you are missing a test/assignment/lab or exam that is worth MORE THAN 10% of your final grade, you will report to the Undergraduate Services Office, SEB 2097. Otherwise, you will report to your department office to request relief.

3. Check the course outline to see if the instructor has a policy for missed tests, examinations, late assignments or attendance.

4. Documentation must be provided as soon as possible. If no one is available in your Department office or the Undergraduate Services Office, leave a message clearly stating your name & student number and reason for your call. The department telephone numbers are given at the end of these instructions.

5. If you decide to write a test or an examination you should be prepared to accept the mark you earn. Rewriting tests or examinations or having the value of a test or examination reweighted on a retroactive basis is not permitted.

B. TERM TESTS

1. If you are in first year and you are unable to write a term test, contact the Undergraduate Services Office, SEB 2097 PRIOR to the scheduled date of the test.

2. If you are an upper year student and you are unable to write a term test, inform your instructor PRIOR to the scheduled date of the test. If the instructor is not available, leave a message for him/her at the department office. If the test is worth MORE THAN 10% of your final grade you will report to the Undergraduate Services Office, SEB 2097 to request relief. Otherwise, you will report to your department office to request relief.

3. Be prepared to provide supporting documentation to the Department Chair and/or the Undergraduate Services Office (see next page for information on documentation).

4. Discuss with the instructor if and when the test can be rescheduled. N.B. The approval of the Chair or the Undergraduate Services Office is required when rescheduling term tests.

C. FINAL EXAMINATIONS

1. If you are unable to write a final examination, contact the Undergraduate Services Office PRIOR TO THE SCHEDULED EXAMINATION TIME to request permission to write a Special Final Examination. If no one is available in the Undergraduate Services Office, leave a message clearly stating your name & student number.

2. Be prepared to provide the Undergraduate Services Office with supporting documentation (see next page for information on documentation) the next day, or as soon as possible (in cases where students are hospitalized). The following circumstances are not considered grounds for missing a final examination or requesting special examinations: common cold, sleeping in, misreading timetable and travel arrangements.

3. In order to receive permission to write a Special Examination, you must obtain the approval of the Chair of the Department and the Associate Dean and in order to apply you must sign a "Recommendation for a Special Examination Form" available in the Undergraduate Services Office. The Undergraduate Services Office will then notify the course instructor(s) and reschedule the examination on your behalf.

N.B. It is the student's responsibility to check the date, time and location of the Special Examination.

D. LATE ASSIGNMENTS

1. Advise the instructor if you are having problems completing the assignment on time (prior to the due date of the assignment).

2. Be prepared to provide documentation if requested by the instructor (see reverse side for information on documentation).

3. If you are granted an extension, establish a due date. The approval of the Chair of your Department (or the Associate Dean if you are in first year) is not required if assignments will be completed prior to the last day of classes.

4. i) Extensions beyond the end of classes must have the consent of the instructor, the department Chair and the Associate Dean. Documentation is mandatory.

   ii) A Recommendation of Incomplete Form must be filled out indicating the work to be completed and the date by which it is due. This form must be signed by the student, the instructor, the department Chair and the Associate Dean.
E. **SHORT ABSENCES**

If you miss a class due to a minor illness or other problem, check your course outlines for information regarding attendance requirements and make sure you are not missing a test, laboratory or assignment. Cover any readings and arrange to borrow notes from a classmate.

F. **EXTENDED ABSENCES**

If you are absent more than one week or if you get too far behind to catch up, you should consider reducing your workload by dropping one or more courses. (Note drop deadlines listed below). You may want to seek advice from the academic counsellor in your Department or Ms. Karen Murray in the Undergraduate Services Office, if you are in first year.

G. **DOCUMENTATION**

If you consulted an off-campus doctor or Student Health Services regarding your illness or personal problem, you must provide the doctor with a **Student Medical Certificate** to complete at the time of your visit and then bring it to the Department (or the Undergraduate Services Office). This note must contain the following information: severity of illness, effect on academic studies and duration of absence. Regular doctor’s notes will not be accepted; only the Student Medical Certificate will be accepted.

**In Case of Serious Illness of a Family Member:** Provide a Student Medical Certificate to your family member's physician to complete and bring it to the Department (or the Undergraduate Services Office if you are in first year).

**In Case of a Death:** Obtain a copy of the death certificate or the notice provided by the funeral director's office. You must include your relationship to the deceased and bring it to the Department (or the Undergraduate Services Office if you are in first year).

**For Other Extenuating Circumstances:** If you are not sure what documentation to provide, ask the Departmental Office (or the Undergraduate Services Office if you are in first year) for direction.

**Note:** Forged notes and certificates will be dealt with severely. To submit a forged document is a scholastic offence (see below).

H. **ACADEMIC CONCERNS**

1. You need to know if your instructors have a policy on late penalties, missed tests, etc. This information may be included on the course outlines. If not, ask your instructor(s).

2. You should also be aware of attendance requirements in some courses. You can be debarred from writing the final examination if your attendance is not satisfactory.

3. If you are in academic difficulty, check out the minimum requirements for progression in the calendar. If in doubt, see your academic counsellor.

**Note:** These instructions apply to all students registered in the Faculty of Engineering regardless of whether the courses are offered by the Faculty of Engineering or other faculties in the University.

**Drop Deadlines:**

- First term half course (i.e. “A” or “F”): November 5, 2017
- Full courses and full-year half courses (i.e. “E”, “Y” or no suffix): November 30, 2017
- Second term half or second term full course (i.e. “B” or “G”): March 7, 2017
