Ian oversees student entrepreneurial initiatives on campus at Western. This includes running events and programs designed to introduce entrepreneurial concepts and ideas to students, developing relationships across campus to promote entrepreneurship and entrepreneurial teaching in the classroom, as well as working individually with student-led start-up companies on their business model, access to financing and mentors. There will be a Q&A session after a discussion of opportunities for support.

The EL&I Speaker Series is open to all members of the Western community interested in technology-based entrepreneurial opportunities. The Series is supported by the John M. Thompson Chair in Engineering Leadership and Innovation and Western Engineering. For Western Engineering students, the Engineering Leadership and Innovation Certificate develops the skills necessary to build lasting technology-based businesses through innovation.

RSVP by October 13, 2014 – brandy.jones@uwo.ca

Please contact Brandy Jones 519-661-2130 if you require information in a different format or if other arrangements can make this event accessible to you.
