Guidelines for Submission of Abstracts

Abstract submissions should be in the extended format consisting of a minimum of two and a maximum of four double-spaced pages (excluding Form). Abstracts should clearly, but briefly, define the objectives of the investigation or study, including what was done, the conclusions drawn and what the findings mean to the environmental industry. Do not send attachments with abstracts.

Authors are required to complete the ABSTRACT SUBMITTAL FORM online (available at www.weao.org) and attach the abstract in PDF format. On the submittal form, please indicate the TOPIC for which the abstract is submitted. If you wish to submit a paper that does not directly relate to the list of topics, please suggest a topic in the space provided. **Note: This year abstract submission will be completed online, not through email.** Faxed copies will NOT be accepted. Authors of selected abstracts must prepare and submit a manuscript in PDF format by January 31, 2015 for inclusion in the proceedings which will be distributed at the conference. In addition, all authors will make podium presentations. **All presenters will be required to register for the conference and pay regular registration fees.** Complete instructions for preparation of manuscripts will be sent to authors of accepted abstracts. Inclusion as a speaker in the final program is contingent upon receipt of a manuscript for inclusion in the proceedings, and upon receipt of a signed Copyright Release as provided by the WEAO upon acceptance.

Abstracts submitted by September 30th will be considered for the technical program.
Abstracts submitted after September 30th will only be considered if there are available spaces in the program.
