

Master of Engineering Project Final report

The report should be a formal technical report (monograph style), conforming to the usual requirements for a standard technical report. The length of the report is a minimum of 50 pages excluding appendices.

The project details and requirements depend on the type of the project, which may require critical review, detailed design, simulation, modeling (verification, sensitivity analysis, ...), etc.

The suggested sections include (but not limited to):

- Title page, table of content, list of Figures and Tables
- Acknowledgements
- Executive summary
- Abstract
- Introduction
- Project outline and objectives
- Theory
- Methodologies (available and the selected approach)
- Computer simulation, model predictions, sensitivity analysis ... (if any)
- Results and discussions
- Conclusions
- Recommendations
- Future work
- Nomenclature
- References
- Appendix: Calibration, raw data, algorithms, computer programs, etc.

Two hard copies of the final report must be submitted to the department graduate coordinator following the deadlines:

Fall semester Dec. 1st

Winter semester April 1st

Summer semester Aug. 1st

The report will be evaluated by two faculty members and the final grade will be reviewed by the supervisor and the Associate Chair, Graduate.
