Master of Engineering Project

The project details and requirements depend on the type of the project, which may require critical review, detailed design, simulation, modeling (verification, sensitivity analysis, ...), laboratory experiments, etc.

The final project report should be a technical report (monograph style), conforming to the requirements for a standard technical report.

The suggested sections include (but not limited to):

- Title page, table of content, list of Figures and Tables
- Acknowledgments
- Executive summary
- Abstract
- Introduction
- Project outline and objectives
- Theory
- Methodologies (available and the selected approach)
- Computer simulation, model predictions, sensitivity analysis ... (if any)
- Results and discussions
- Conclusions
- Recommendations
- Future work
- Nomenclature
- References
- Appendix: Calibration, raw data, algorithms, computer programs, etc.

The details of project implementation are based on the agreement between the supervisor and the student. The final report will be marked by the supervisor. The supervisor should highlight the main areas of strengths and weaknesses of the student.

MEng Project Evaluation Format

Proposal submission deadline: before the end of the first month from the date of initial enrollment in the course. Students who miss the deadline will be withdrawn from the course.

| Term of initial enrollment in the course | Proposal submission deadline |
|--|------------------------------|
| Fall term | September 30 th |
| Winter term | January 31 st |
| Summer term | May 31 st |

Progress report submission deadline: two weeks before the end of first term of enrollment in the course. Students who miss the deadline will be withdrawn from the course.

| Term of initial enrollment in the course | Progress report submission deadline |
|--|-------------------------------------|
| Fall term | December 15 th |
| Winter term | April 15 th |
| Summer term | August 15 th |

Failure to meet the deadlines may result in registration for an additional semester in the program; tuition fee will be charged accordingly.

Note: If the student is not graduating, the report submission and final grade deadlines will be switched to the next term.

Evaluation: Pass/Fail decision.
