

**SHORT COURSE AND WORKSHOP ON  
Design of Machine Foundations**

**April 26 & 27, 2018**

Instructor: Prof. M. Hesham El Naggar, PhD, P. Eng., FEIC

Geotechnical Research Centre  
1151 Richmond Street North  
Faculty of Engineering, Western University  
London, ON N6A 5B9  
E-mail: [cquintus@uwo.ca](mailto:cquintus@uwo.ca)  
Tel: 519.661.3344 Fax: 519.661.3942

The course will be held at the  
**Carriage House Inn**  
9030 MacLeod Trails  
Calgary, AB

**Registration Fee: \$1,000 plus GST (5%)**  
Includes: Breakfast, lunch and course notes.

This short course and workshop should be of interest to geotechnical engineers and civil engineers who wish to have a better understanding of the current state-of-the-art with respect to the analysis and design of flexible, rigid and pile foundations subjected to all types of dynamic loads. All key concepts and terminology will be explained, and emphasis will be placed on the practical application of the information provided.

**REGISTRATION FORM**

**SHORT COURSE AND WORKSHOP ON  
Design of Machine Foundations**

Please fill in and return:

\_\_\_\_\_  
First Name Last Name

\_\_\_\_\_  
Your Title

\_\_\_\_\_  
Company

\_\_\_\_\_  
Street Address

\_\_\_\_\_  
City State/Province Postal Code
