Description: This course provides an introduction to devices and circuits that form the foundation of electronics. Successful completion of this course will enable students to understand the physical operation of semiconductor devices such as diodes and transistors, and enable students to model those devices characteristics. The objective of this course is the ability to analyze and design discrete analog electronic circuits to fulfill specific design requirements.

Instructor: Dr. John McLeod
TEB 247, 519-661-2111 ext. 81265, jmcleod7@uwo.ca
Consultation hours: By appointment

Contact Hours: 3 lecture hours, 1 laboratory hours, 1 tutorial hours, 0.5 course.

Antirequisite: N/A

Prerequisites: ECE 2205A/B, Physics 1402B or the former Physics 1026

Co-requisite: N/A

Unless you have either the requisites for this course or written special permission from your Dean to enroll in it, you will be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

CEAB Academic Units: Engineering Science 75%, Engineering Design 25%.

Other Required References: N/A

General Learning Objectives (CEAB Graduate Attributes)

Topics and Specific Learning Objectives

1. **Signals and Amplifiers**
   
   Section covers signals, frequency spectrum of signals, analog and digital signals, amplifiers, circuit models for amplifiers, and frequency response of amplifiers.
   
   At the end of this section, students will be able to:
   
   a. Understand signals in time and frequency domains.
   
   b. Understand the difference between analog and digital signals.
   
   c. Understand basics of electronic circuits.

2. **Operational Amplifiers**
   
   Section covers ideal operational amplifiers (op amps); inverting and non-inverting configurations; applications of op amps including difference amplifiers, integrators, and differentiators; DC imperfections; effect of finite open-loop gain and bandwidth on circuit performance; and large signal operation of op amps.
   
   a. Understand operating mechanism of op amps.
   
   b. Solve a given op amp circuit to understand how that circuit fulfills design requirements.
   
   c. Design circuits with op amps to fulfill specified design requirements.

3. **Semiconductors**
   
   Section covers intrinsic and doped semiconductors, dynamics of current in semiconductors, practical application of semiconductors in pn junctions, performance of pn junctions under applied voltage, and capacitive effects of pn junctions.
   
   At the end of this section, students will be able to:
   
   a. Understand physics of intrinsic and doped semiconductors.
   
   b. Understand physical operation of diodes and transistors.

4. **Diodes**
   
   Section covers ideal diodes, terminal characteristics of junction diodes, modeling of forward and reverse operation of diodes, breakdown and Zener diodes, rectifier circuits, limiting and clamping circuits, and special diode types.
   
   At the end of this section, students will be able to:
a. Understand performance requirements diodes and model current-voltage characteristics.
b. Solve diode circuits and understand their applications.

5. Metal-Oxide-Semiconductor Field-Effect Transistors (MOSFETs)
Section covers physical construction of MOSFETs, current-voltage characteristics, MOSFET circuits under DC operating conditions, and the body effect in MOSFETS and other non-ideal behaviour.

At the end of this section, students will be able to:

a. Understand physical structure and design of MOSFETs.
b. Solve MOSFET circuits and understand their applications.

6. Bipolar Junction Transistors (BJTs)
Section covers physical construction of BJTs, current-voltage characteristics, BJT circuits under DC operating conditions, transistor breakdown, and temperature effects in BJTs.

At the end of this section, students will be able to:

a. Understand physical structure and design of BJTs.
b. Solve BJT circuits and understand their applications.

6. Transistor Amplifiers
Section covers the basic principles of transistor amplifiers, small-signal operation, models of transistor amplifiers, basic configurations, biasing, discrete-circuit amplifiers, and the amplifier frequency response.

At the end of this section, students will be able to:

a. Understand the design of transistor amplifiers.
b. Solve amplifier circuits and understand their applications.

Evaluation

</tr>
<tr>
<td>Final Examination</td>
<td>50%</td>
</tr>
</tbody>
</table>

To obtain a passing grade in the course, a mark of 50% or more must be achieved on the final examination as well as on the laboratory. A final examination or laboratory mark < 50% will result in a final course grade of 48% or less.

Homework Assignments: 5 assignments will be announced in class and posted online. Links will be provided. Students will generally have 2 weeks to complete each homework assignment. The tentative schedule for the homework assignments is that one will be due on the Fridays January 24, February 7, February 28, March 13, and March 27.

Laboratory: 4 labs (3 hours each session) will be given, the laboratory mark is evenly distributed among them. Laboratory sessions that are missed for good reason may be
rescheduled, advance notice of schedule conflicts that may cause a laboratory session to be missed is preferred whenever possible.

**Midterm Test:** The midterm test has not yet been scheduled. The exact date will be announced in class and posted online well in advance of the test date.

**Final Examination:** The final examination will be take place during the regular examination period.

**Late Submission Policy:** Assignments are due by midnight on Friday, normally two weeks after the assignment is first posted. The exact due date will be indicated on the assignment. Late assignments may be submitted by midnight on the following Monday, the student’s grade will be reduced by 25% in penalty. Submissions later than the following Monday will not be accepted without legitimate reason, and will receive a grade of zero.

**Assignment Submission Locker:** Locker 203 located on the second floor of TEB.

**Use of English:** In accordance with Senate and Faculty Policy, students may be penalized up to 10% of the marks on all assignments, tests, and examinations for improper use of English. Additionally, poorly written work with the exception of the final examination may be returned without grading. If resubmission of the work is permitted, it may be graded with marks deducted for poor English and/or late submission.

**Attendance:** Any student who, in the opinion of the instructor, is absent too frequently from class, laboratory, or tutorial periods will be reported to the Dean (after due warning has been given). On the recommendation of the department, and with the permission of the Dean, the student will be debarred from taking the regular final examination in the course.

**Absence Due to Illness or Other Circumstances:** Students should immediately consult with the instructor or department Chair if they have any problems that could affect their performance in the course. Where appropriate, the problems should be documented (see the attached “Instructions for Students Unable to Write Tests or Examinations or Submit Assignments as Scheduled”). The student should seek advice from the instructor or department Chair regarding how best to deal with the problem. Failure to notify the instructor or department Chair immediately (or as soon as possible thereafter) will have a negative effect on any appeal.

For more information concerning medical accommodations, see the relevant section of the Academic Handbook:
http://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_medical.pdf

For more information concerning accommodations for religious holidays, see the relevant section of the Academic Handbook:
http://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_religious.pdf

**Missed Midterm Examinations:** If a student misses a midterm examination, she or he must follow the Instructions for Students Unable to Write Tests and provide documentation to Undergraduate Services Office within 24 hours of the missed test. If accommodation is granted, the department will decide whether to provide a make-up test or allow reweighting of the test,
where reweighting means the marks normally allotted for the midterm will be added to the final exam. If no reasonable justification for missing the test can be found, then the student will receive a mark of zero for the test.

If a student is going to miss the midterm examination for religious reasons, they must inform the instructor in writing within 48 hours of the announcement of the exam date or they will be required to write the exam.

**Cheating and Plagiarism:** Students must write their essays and assignments in their own words. Whenever students take an idea or a passage from another author, they must acknowledge their debt both by using quotation marks where appropriate and by proper referencing such as footnotes or citations. University policy states that cheating, including plagiarism, is a scholastic offence. The commission of a scholastic offence is attended by academic penalties, which might include expulsion from the program. If you are caught cheating, there will be no second warning.

All required papers may be subject to submission for textual similarity review to commercial plagiarism-detection software under license to the University for the detection of plagiarism. All papers submitted will be included as source documents on the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between the University of Western Ontario and Turnitin.com (http://www.turnitin.com).

Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, in the relevant section of the Academic Handbook: http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf

**Use of Electronic Devices:** Students may use personal electronic devices (laptops, tablets, smartphones, etc.) during lecture, tutorial, or laboratory hours as long as such use is not disruptive to other students or the class in general. Use of personal electronic devices other than approved, non-programmable calculators is strictly forbidden during the midterm test and the final examination.

**Use of Personal Response Devices (“Clickers”):** Clickers are not a component of this course.

**Policy on Repeating All Components of a Course:** Students who are required to repeat an Engineering course must repeat all components of the course. No special permissions will be granted enabling a student to retain laboratory, assignment, or test marks from previous years. Previously completed assignments and laboratories cannot be resubmitted by the student for grading in subsequent years.

**Internet and Electronic Mail:** Students are responsible for regularly checking their Western e-mail and the course web site (https://owl.uwo.ca/portal/) and making themselves aware of any information that is posted about the course.
Accessibility: Please contact the course instructor if you require material in an alternate format or if any other arrangements can make this course more accessible to you. You may also wish to contact Services for Students with Disabilities (SSD) at 519-661-2111 ext. 82147 for any specific question regarding an accommodation.

Student Development Centre, http://www.sdc.uwo.ca/
Engineering Undergraduate Services, http://www.eng.uwo.ca/undergraduate/
USC Student Support Services, http://westernusc.ca/services/

Students who are in emotional/mental distress should refer to Mental Health @ Western, http://www.health.uwo.ca/mental_health/, for a complete list of options about how to obtain help.
INSTRUCTIONS FOR STUDENTS UNABLE TO WRITE TESTS OR EXAMINATIONS OR SUBMIT ASSIGNMENTS AS SCHEDULED

If, on medical or compassionate grounds, you are unable to write term tests or final examinations or complete course work by the due date, you should follow the instructions listed below. You should understand that academic relief will not be granted automatically on request. You must demonstrate to your department (or the Undergraduate Services Office) that there are compelling medical or compassionate grounds that can be documented before academic relief will be considered. Different regulations apply to term tests, final examinations and late assignments. Please read the instructions carefully.

NEW: Requests for Academic Consideration using the Self-Reported Absence Form

If you experience an unexpected illness or injury or an extenuating circumstance (48 hours or less) that is sufficiently severe to temporarily render you unable to meet academic requirements (e.g., attending lectures or labs, writing tests or midterm exams, completing and submitting assignments, participating in presentations) you should self-declare using the online Self-Reported Absence portal. This option should be used in situations where you expect to resume academic responsibilities within 48 hours or less.

Each student will be allowed a maximum of two self-reported absences between September and April and one self-reported absence between May and August. Self-reporting may not be used for final exams or assessments (e.g. midterm exams, tests, reports, presentations, or essays) worth more than 30% of any given course.

For full instructions about the Self-Reporting System refer to the Academic Calendar: http://westerncalendar.uwo.ca/PolicyPages.cfm?PolicyCategoryID=1&Command=showCategory&Keywords=report&SubHeadingID=322&SelectedCalendar=Live&ArchiveID=#SubHeading _322

A. GENERAL REGULATIONS & PROCEDURES (other than self-reported absences)

1. All first year students will report to the Undergraduate Services Office, SEB 2097, for all instances.

2. If you are an upper year student and you are missing a test/assignment/lab or examination that is worth LESS THAN 10\% of your mark, you should report to your department office to request relief. If your course work is worth MORE THAN 10\% of your final grade, you will report to the Undergraduate Services Office, SEB 2097.

3. Check the course outline to see if the instructor has a policy for missed tests, examinations, late assignments or attendance.

4. Documentation must be provided as soon as possible. If no one is available in your department office or the Undergraduate Services Office, leave a message clearly stating your name & student number and reason for your call. The department telephone numbers are given at the end of these instructions.

5. If you decide to write a test or an examination you should be prepared to accept the mark you earn. Rewriting tests or examinations or having the value of a test or examination reweighted on a retroactive basis is not permitted.

B. TERM/MIDTERM TESTS (other than self-reported absences)

1. If you are in first year and you are unable to write a midterm/term test, contact the Undergraduate Services Office, SEB 2097 PRIOR to the scheduled date of the test.

2. If you are an upper year student and you are unable to write a midterm/term test, inform your instructor PRIOR to the scheduled date of the test. If the instructor is not available, leave a message for him/her at the department office. If the test is worth LESS THAN 10\% of your mark, you should report to your department office to request relief. If the test is worth MORE THAN 10\% of your final grade you will report to the Undergraduate Services Office, SEB 2097 to request relief.

3. Be prepared to provide supporting documentation to the Department Chair and/or the Undergraduate Services Office (see next page for information on documentation).

4. Discuss with the instructor if and when the test can be rescheduled. N.B. The approval of the Chair or the Undergraduate Services Office is required when rescheduling midterm/term tests.
C. **FINAL EXAMINATIONS** (cannot be self-reported)

1. If you are unable to write a final examination, contact the Undergraduate Services Office PRIOR TO THE SCHEDULED EXAMINATION TIME to request permission to write a Special Final Examination. If no one is available in the Undergraduate Services Office, leave a message clearly stating your name & student number.

2. Be prepared to provide the Undergraduate Services Office with supporting documentation (see next page for information on documentation) the next day, or as soon as possible (in cases where students are hospitalized). The following circumstances are not considered grounds for missing a final examination or requesting special examinations: common cold, headache, sleeping in, misreading timetable and travel arrangements.

3. In order to receive permission to write a Special Examination, you must obtain the approval of the Chair of the Department and the Associate Dean and in order to apply you must sign a "Recommendation for a Special Examination Form" available in the Undergraduate Services Office. The Undergraduate Services Office will then notify the course instructor(s) and reschedule the examination on your behalf.

**PLEASE NOTE:** It is the student’s responsibility to check the date, time and location of the Special Examination.

D. **LATE ASSIGNMENTS**

1. Advise the instructor if you are having problems completing the assignment on time (prior to the due date of the assignment).
2. Be prepared to provide documentation if requested by the instructor (see reverse side for information on documentation).
3. If you are granted an extension, establish a due date. The approval of the Chair of your Department (or the Assistant Dean, First Year Studies, if you are in your first year) is not required if assignments will be completed prior to the last day of classes.
4. i) Extensions beyond the end of classes must have the consent of the instructor, the department Chair and the Associate Dean, Undergraduate Studies. Documentation is mandatory.
   ii) A Recommendation of Incomplete Form must be filled out indicating the work to be completed and the date by which it is due. This form must be signed by the student, the instructor, the department Chair and the Associate Dean, Undergraduate Studies.

E. **SHORT ABSENCES**

If you miss a class due to a minor illness or other problem, check your course outlines for information regarding attendance requirements and make sure you are not missing a test, laboratory or assignment. Cover any readings and arrange to borrow notes from a classmate.

F. **EXTENDED ABSENCES**

If you are absent more than one week or if you get too far behind to catch up, you should consider reducing your workload by dropping one or more courses. (Note drop deadlines listed below). You are strongly encouraged to seek advice from your Academic Counsellor in the Undergraduate Services Office.

G. **DOCUMENTATION**

If you consulted an off-campus doctor or Student Health Services regarding your illness or personal problem, you must provide the doctor with a Student Medical Certificate to complete at the time of your visit and then bring it to the Department (or the Undergraduate Services Office). This note must contain the following information: severity of illness, effect on academic studies and duration of absence. Regular doctor’s notes will not be accepted; only the Student Medical Certificate will be accepted.

**In Case of Serious Illness of a Family Member:** Provide a Student Medical Certificate to your family member's physician to complete and bring it to the Department (or the Undergraduate Services Office if you are in first year).

**In Case of a Death:** Obtain a copy of the death certificate or the notice provided by the funeral director's office. You must include your relationship to the deceased and bring it to the Department (or the Undergraduate Services Office if you are in first year).

**For Other Extenuating Circumstances:** If you are not sure what documentation to provide, ask the Departmental Office (or the Undergraduate Services Office if you are in first year) for direction.

**Note:** Forged notes and certificates will be dealt with severely. To submit a forged document is a scholastic offence (see below).
H. **ACADEMIC CONCERNS**

1. You need to know if your instructors have a policy on late penalties, missed tests, etc. This information may be included on the course outlines. If not, ask your instructor(s).

2. You should also be aware of attendance requirements in some courses. You can be debarred from writing the final examination if your attendance is not satisfactory.

3. If you are in academic difficulty, check out the minimum requirements for progression in the calendar. If in doubt, see your Academic Counsellor.
