

**Western University
Faculty of Engineering
Department of Electrical and Computer Engineering**

**ECE 2231A/B: Introduction to Electronics
Course Outline 2017-18**

DESCRIPTION- This course will provide students with a basic understanding of semiconductor devices (diodes and transistors) and electronic circuits, with emphasis on analog signals. Methods for the analysis and design of basic analog circuits will be introduced.

INSTRUCTOR- Tarik Menkad.
Room: SEB2023, Email: tmenkad@uwo.ca

OFFICE HOURS- to be determined later after consulting with the students.

ACADEMIC CALENDAR COPY- <http://www.westerncalendar.uwo.ca/2017/pg906.html#34409>

CONTACT HOURS- 03 lecture hours/week, 02 tutorial hour/week, 0.5 course.

ANTIREQUISITE- None

COREQUISITE- None

PREREQUISITE- ECE 2205A/B, Physics 1402A/B,

Unless you have either the requisites for this course or a written special permission from your Dean to enroll in it, you will be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the prerequisites.

CEAB ACADEMIC UNITS- Engineering Science 100%, Engineering Design 0%

TEXTBOOK- ECE2231 has ONE textbook.

Microelectronic Circuits by Sedra/Smith, preferably but not necessarily the 7th Edition, Oxford University Press, ISBN:978-0-19-933913-6. (Course Textbook)

ADDITIONAL READING MATERIAL-

Electronic Devices and Circuit Theory by R.L. Boylestad and L. Nashelsky, 11th Edition, Prentice-Hall, ISBN: 0-132-622262. (Additional Reading Material)

GENERAL LEARNING OBJECTIVES (CEAB Graduate Attributes)-

Knowledge Base	2/1	Use of Engineering Tools		Impact on Society and the Environment	
Problem Analysis	2/1	Individual and Team Work		Ethics and Equity	
Investigation		Communication Skills		Economics and Project Management	
Design		Professionalism		Life-Long Learning	

Notation: x/y , where x is the cognitive level (1: Remember, 2: Understand, 3: Apply) at which the attribute is assessed and y is the academic level (1: Beginner, 2: Intermediate, 3: Advanced) at which the attribute is assessed.

TOPICS AND SPECIFIC LEARNING OBJECTIVES

1. PN junction Diodes

- Basic physics of semiconductors of diodes
- The P-N junction and its characteristics.

At the end of this section, students will have a basic understanding in elementary semiconductor physics of a PN junction. They will assimilate the electrical characteristics of a PN junction and will be able use the diode Kirchhoff models for electrical circuit analysis.

2. Diode Application in Electronics

- Current rectification and current steering
- Voltage Clipping and clamping
- Voltage regulation

At the end of this section, students will be able to identify and analyse basic diode circuits, which perform the following fundamental functions; rectification, waveform clamping and clipping, and elementary voltage regulation,

3. Bipolar Junction Transistor (BJT)

- Transistors physics and characteristics
- Large-signal and small-signal models.

At the end of this section, students will have an elementary understanding of the physics of a BJT based on the previous study of PN junction diodes. The students will understand the large-signal behavior of a BJT and assimilate its intrinsic nonlinear nature. They will understand the linearization procedure of the BJT through a necessary small-signal operation mode. Students will be able to use BJT small signal Kirchhoff models in electrical circuit analysis.

4. BJT Amplifiers and Circuits, Analysis and Design

- Common Emitter (CE) circuit configuration
- Common Base (CB) circuit configuration.
- Common Collector (CC) or Emitter Follower (EF) circuit configuration.

At the end of this section, students will be familiar with BJT major circuit topologies. Students will be able to carry analysis and take decisions like perform judicious approximations for fast hand calculations of electrical quantities of interest for such topologies. The students will be able to perform circuit design by calculating the required circuit values needed to achieve a required metric or satisfy a design specification.

5. Field Effect Transistors (FET)

- MOSFET physics and characteristics.
- Large-signal and small-signal models.

At the end of this section, students will have a basic understanding of the physics of a Metal Oxide Semiconductor structure and of a Metal Oxide Semiconductor Field Effect Transistor (MOSFET). They will have a clear understanding of the difference between BJTs and MOSFETs and the scope of applications such difference sets for both devices. The student will be able to use the large signal model to represent the nonlinear nature of the MOSFET in electrical circuit analysis. They will also be able to understand the linearization procedure of this inherently nonlinear device around its operation point and use the subsequent small signal model.

6. MOSFET Amplifiers and Circuits, Analysis and Design

- Common Source (CS) circuit configuration
- Common Gate (CG) circuit configuration.
- Common Drain (CD) or Source Follower (SF) circuit configuration.

At the end of this section, students will be familiar with MOSFET major circuit topologies. Students will be able to carry analysis on these circuit topologies. The students will be able to perform circuit design by calculating the required circuit values needed to achieve a required metric or satisfy a design specification.

EVALUATION-The final course grade will be determined from a student's performance in assignments, a mid-term examination, and a final examination. The weighting of each of three components is as follows:

Course Component	Weight
Homework Assignments	10%
Quizzes	NA
Laboratory	NA
Midterm Test	30%
Final Examination	60%

To obtain a passing grade in the course, The student must obtain a mark of 50% or more on the final examination. A final examination < 50% will result in a final course grade of 48% or less.

HOMEWORK ASSIGNMENTS-5 to 6 assignments will posted on the course website via OWL.

Assignment Submission Locker -Locker 203 located on the second floor of TEB.

Late Submission Policy-The maximum penalty for an unauthorized late submission of a lab report will be 10% per day of the maximum obtainable mark. Lab reports that are more than 5 days late will not be accepted.

QUIZZES-NA

LABORATORY-NA

MIDTERM EXAM-TBA

Any change in the mid-term examination (date, time, room, etc) will be announced at least three days prior to the revised examination unless stated otherwise in class. Only the use of non-programmable calculators will be allowed for the mid-term test.

FINAL EXAMINATION-A 3-hour final examination will take place during the regular examination period. Only the use of non-programmable calculators will be allowed for the final exam.

Use of English: In accordance with Senate and Faculty Policy, students may be penalized up to 10% of the marks on all assignments, tests, and examinations for improper use of English. Additionally, poorly written work with the exception of the final examination may be returned without grading. If resubmission of the work is permitted, it may be graded with marks deducted for poor English and/or late submission.

Attendance: Any student who, in the opinion of the instructor, is absent too frequently from class, laboratory, or tutorial periods will be reported to the Dean (after due warning has been given). On the recommendation of the department, and with the permission of the Dean, the student will be debarred from taking the regular final examination in the course.

Absence Due to Illness or Other Circumstances: Students should immediately consult with the instructor or department Chair if they have any problems that could affect their performance in the course. Where appropriate, the problems should be documented (see the attached "Instructions for Students Unable to Write Tests or Examinations or Submit Assignments as Scheduled"). The student should seek advice from the instructor or department Chair regarding how best to deal with the problem. Failure to notify the instructor or department Chair immediately (or as soon as possible thereafter) will have a negative effect on any appeal.

For more information concerning medical accommodations, see the relevant section of the Academic Handbook: http://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_medical.pdf

For more information concerning accommodations for religious holidays, see the relevant section of the Academic Handbook:

http://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_religious.pdf

Missed Midterm Examinations: If a student misses a midterm examination, the exam will not be rescheduled. The student must follow the Instructions for Students Unable to Write Tests and provide documentation to their department within 24 hours of the missed test. The department will decide whether to allow the reweighting of the test, where reweighting means the marks normally allotted for the midterm will be added to the final exam. If no reasonable justification for missing the test can be found, then the student will receive a mark of zero for the test.

If a student is going to miss the midterm examination for religious reasons, they must inform the instructor in writing within 48 hours of the announcement of the exam date or they will be required to write the exam.

Cheating and Plagiarism: Students must write their essays and assignments in their own words. Whenever students take an idea or a passage from another author, they must acknowledge their debt both by using quotation marks where appropriate and by proper referencing such as footnotes or citations. University policy states that cheating, including plagiarism, is a scholastic offence. The commission of a scholastic offence is attended by academic penalties, which might include expulsion from the program. If you are caught cheating, there will be no second warning.

All required papers may be subject to submission for textual similarity review to commercial plagiarism-detection software under license to the University for the detection of plagiarism. All papers submitted will be included as source documents on the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between the University of Western Ontario and Turnitin.com (<http://www.turnitin.com>).

Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, in the relevant section of the Academic Handbook: http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf

Use of Electronic Devices:

Use of Personal Response Devices (“Clickers”):

Policy on Repeating All Components of a Course: Students who are required to repeat an Engineering course must repeat all components of the course. No special permissions will be granted enabling a student to retain laboratory, assignment, or test marks from previous years. Previously completed assignments and laboratories cannot be resubmitted by the student for grading in subsequent years.

Internet and Electronic Mail: Students are responsible for regularly checking their Western e-mail and the course web site (<https://owl.uwo.ca/portal/>) and making themselves aware of any information that is posted about the course.

Accessibility: Please contact the course instructor if you require material in an alternate format or if any other arrangements can make this course more accessible to you. You may also wish to contact Services for Students with Disabilities (SSD) at 519-661-2111 ext. 82147 for any specific question regarding an accommodation.

Support Services: Office of the Registrar, <http://www.registrar.uwo.ca/>
Student Development Centre, <http://www.sdc.uwo.ca/>
Engineering Undergraduate Services, <http://www.eng.uwo.ca/undergraduate/>
USC Student Support Services, <http://westernusc.ca/services/>

Students who are in emotional/mental distress should refer to Mental Health @ Western, http://www.health.uwo.ca/mental_health/, for a complete list of options about how to obtain help.

INSTRUCTIONS FOR STUDENTS UNABLE TO WRITE TESTS OR EXAMINATIONS OR SUBMIT ASSIGNMENTS AS SCHEDULED

IF, ON MEDICAL OR COMPASSIONATE GROUNDS, YOU ARE UNABLE TO WRITE TERM TESTS OR FINAL EXAMINATIONS OR COMPLETE COURSE WORK BY THE DUE DATE, YOU SHOULD FOLLOW THE INSTRUCTIONS LISTED BELOW. YOU SHOULD UNDERSTAND THAT ACADEMIC RELIEF WILL NOT BE GRANTED AUTOMATICALLY ON REQUEST. YOU MUST DEMONSTRATE TO YOUR DEPARTMENT (OR THE UNDERGRADUATE SERVICES OFFICE) THAT THERE ARE COMPELLING MEDICAL OR COMPASSIONATE GROUNDS THAT CAN BE DOCUMENTED BEFORE ACADEMIC RELIEF WILL BE CONSIDERED. DIFFERENT REGULATIONS APPLY TO TERM TESTS, FINAL EXAMINATIONS AND LATE ASSIGNMENTS. PLEASE READ THE INSTRUCTIONS CAREFULLY. (SEE THE 2017 UWO ACADEMIC CALENDAR).

A. GENERAL REGULATIONS & PROCEDURES

1. All first year students will report to the Undergraduate Services Office, SEB 2097, for all instances.
2. If you are an upper year student and you are missing a test/assignment/lab or exam that is worth MORE THAN 10% of your final grade, you will report to the Undergraduate Services Office, SEB 2097. Otherwise, you will report to your department office to request relief.
3. Check the course outline to see if the instructor has a policy for missed tests, examinations, late assignments or attendance.
4. Documentation must be provided as soon as possible. If no one is available in your Department office or the Undergraduate Services Office, leave a message clearly stating your name & student number and reason for your call. The department telephone numbers are given at the end of these instructions.
5. If you decide to write a test or an examination you should be prepared to accept the mark you earn. Rewriting tests or examinations or having the value of a test or examination reweighted on a retroactive basis is not permitted.

B. TERM TESTS

1. If you are in first year and you are unable to write a term test, contact the Undergraduate Services Office, SEB 2097 PRIOR to the scheduled date of the test.
2. If you are an upper year student and you are unable to write a term test, inform your instructor PRIOR to the scheduled date of the test. If the instructor is not available, leave a message for him/her at the department office. If the test is worth MORE THAN 10% of your final grade you will report to the Undergraduate Services Office, SEB 2097 to request relief. Otherwise, you will report to your department office to request relief.
3. Be prepared to provide supporting documentation to the Department Chair and/or the Undergraduate Services Office (see next page for information on documentation).
4. Discuss with the instructor if and when the test can be rescheduled. **N.B.** The approval of the Chair or the Undergraduate Services Office is required when rescheduling term tests.

C. FINAL EXAMINATIONS

1. If you are unable to write a final examination, contact the Undergraduate Services Office PRIOR TO THE SCHEDULED EXAMINATION TIME to request permission to write a Special Final Examination. If no one is available in the Undergraduate Services Office, leave a message clearly stating your name & student number.
2. Be prepared to provide the Undergraduate Services Office with supporting documentation (see next page for information on documentation) the next day, or as soon as possible (in cases where students are hospitalized). The following circumstances are not considered grounds for missing a final examination or requesting special examinations: common cold, sleeping in, misreading timetable and travel arrangements.
3. In order to receive permission to write a Special Examination, you must obtain the approval of the Chair of the Department **and** the Associate Dean and in order to apply you must sign a "Recommendation for a Special Examination Form" available in the Undergraduate Services Office. The Undergraduate Services Office will then notify the course instructor(s) and reschedule the examination on your behalf.

N.B. It is the student's responsibility to check the date, time and location of the Special Examination.

D. LATE ASSIGNMENTS

1. Advise the instructor if you are having problems completing the assignment on time (**prior** to the due date of the assignment).
2. Be prepared to provide documentation if requested by the instructor (see reverse side for information on documentation).
3. If you are granted an extension, establish a due date. The approval of the Chair of your Department (or the Associate Dean if you are in first year) is not required if assignments will be completed prior to the last day of classes.
4.
 - i) Extensions beyond the end of classes must have the consent of the instructor, the department Chair and the Associate Dean. Documentation is mandatory.
 - ii) A Recommendation of Incomplete Form must be filled out indicating the work to be completed and the date by which it is due. This form must be signed by the student, the instructor, the department Chair and the Associate Dean.

E. SHORT ABSENCES

If you miss a class due to a minor illness or other problem, check your course outlines for information regarding attendance requirements and make sure you are not missing a test, laboratory or assignment. Cover any readings and arrange to borrow notes from a classmate.

F. EXTENDED ABSENCES

If you are absent more than one week or if you get too far behind to catch up, you should consider reducing your workload by dropping one or more courses. (Note drop deadlines listed below). You may want to seek advice from the academic counsellor in your Department or Ms. Karen Murray in the Undergraduate Services Office, if you are in first year.

G. DOCUMENTATION

If you consulted an off-campus doctor or Student Health Services regarding your illness or personal problem, **you must provide the doctor with a Student Medical Certificate** to complete at the time of your visit and then bring it to the Department (or the Undergraduate Services Office). **This note must contain the following information: severity of illness, effect on academic studies and duration of absence. Regular doctor's notes will not be accepted; only the Student Medical Certificate will be accepted.**

In Case of Serious Illness of a Family Member: Provide a Student Medical Certificate to your family member's physician to complete and bring it to the Department (or the Undergraduate Services Office if you are in first year).

In Case of a Death: Obtain a copy of the death certificate or the notice provided by the funeral director's office. You must include your relationship to the deceased and bring it to the Department (or the Undergraduate Services Office if you are in first year).

For Other Extenuating Circumstances: If you are not sure what documentation to provide, ask the Departmental Office (or the Undergraduate Services Office if you are in first year) for direction.

Note: Forged notes and certificates will be dealt with severely. To submit a forged document is a scholastic offence (see below).

H. ACADEMIC CONCERNS

1. You need to know if your instructors have a policy on late penalties, missed tests, etc. This information may be included on the course outlines. If not, ask your instructor(s).
2. **You should also be aware of attendance requirements in some courses. You can be debarred from writing the final examination if your attendance is not satisfactory.**
3. If you are in academic difficulty, check out the minimum requirements for progression in the calendar. If in doubt, see your academic counsellor.

Note: These instructions apply to all students registered in the Faculty of Engineering regardless of whether the courses are offered by the Faculty of Engineering or other faculties in the University.

Drop Deadlines:

First term half course (i.e. "A" or "F"):	November 5, 2017
Full courses and full-year half courses (i.e. "E", "Y" or no suffix):	November 30, 2017
Second term half or second term full course (i.e. "B" or "G"):	March 7, 2017
