

**Western University**  
**Faculty of Engineering**  
**Department of Electrical and Computer Engineering**

**ECE 2238B: Introduction to Electrical Engineering**

**Course Outline – Winter 2018**

**Description:** Equipment such as cars, robots, smartphones and chemical sensor controls contain both hardware and software components that work cooperatively. With the increasing emphasis in industry on hardware/software co-design, it is important for software, integrated and green process engineering students to be familiar with hardware concepts. In this course, you will learn the fundamentals of DC, transient and AC analyses and will become familiar with the use of electronic devices such as operational amplifiers, diodes and transistors.

**Instructor:** Hanif Ladak, Ph.D., P.Eng.  
Medical Sciences Building, Room M403  
Office phone: 519-661-2111 ext. 86551  
[hladak@uwo.ca](mailto:hladak@uwo.ca)  
*Consultation hours:* 2:30 pm – 4:30 pm on Monday or by appointment at other times.

**Academic Calendar Copy:** DC circuit analysis, fundamentals of DC circuit analysis, Ohm's Law, KCL, KVL, Thévenin and Norton Equivalent circuits, maximum power transfer; linear analog circuits, diodes, transistors, operational amplifiers, biasing, gain, frequency response.

**Contact Hours:** 3 lecture hours, 3 laboratory hours, 2 tutorial hours, 0.5 course

*Lectures:*

- Mondays, 5:30 pm – 6:20 pm, Spencer Engineering Building, Room 1059
- Wednesdays, 5:30 pm – 6:20 pm, Spencer Engineering Building, Room 1059
- Thursdays, 4:30 pm – 5:20 pm, Spencer Engineering Building, Room 2200
- The first lecture will be on Monday, January 8, 2018.

*Tutorials:*

- Tuesdays, 10:30 am – 12:30 pm, 3M Centre, Room 3250
- Not all tutorial periods will be used. A schedule of tutorials will be posted in OWL.

*Labs:*

- Mondays, 6:30 pm – 9:30 pm, Spencer Engineering Building, Room 3107
- Tuesdays, 1:30 pm – 4:30 pm, Spencer Engineering Building, Room 3107
- Wednesdays, 12:30 pm – 3:30 pm, Spencer Engineering Building, Room 3107
- Thursdays, 8:30 am – 11:30 am, Spencer Engineering Building, Room 3107
- See schedule further on in this outline for specific lab dates.

**Antirequisite:** ECE 2205A/B, ECE 2231A/B

**Prerequisites:** Physics 1402A/B or the former Physics 1026, AM 1411a/b, AM 1413, CS 1026a/b or ES 1036a/b or the former CS 036a/b

Unless you have either the requisites for this course or written special permission from your Dean to enroll in it, you will be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

**CEAB Academic Units:** Engineering Science 100%, Engineering Design 0%

**Required Textbook:** G. Rizzoni, *Fundamentals of Electrical Engineering*, McGraw-Hill, 2009.

**Other Required Reference:** ECE 2238a/b: Laboratory Manual (available electronically on OWL)

**Recommended References:**

1. David V. Kerns Jr. & J. David Irwin, *Essentials of Electrical and Computer Engineering*, Prentice Hall, 2004.
2. A.S. Sedra and K.,C. Smith *Microelectronic Circuits*, 4<sup>th</sup> Edition, 1996, Oxford University Press.
3. K.C. Smith, *KC's Problems and Solutions for Microelectronic Circuits*, 1996, Oxford University Press.

**General Learning Objectives (CEAB Graduate Attributes)**

Knowledge Base	3/1	Use of Engineering Tools	3/1	Impact on Society and the Environment	
Problem Analysis	3/1	Individual and Team Work		Ethics and Equity	
Investigation		Communication Skills		Economics and Project Management	
Design		Professionalism		Life-Long Learning	

Notation:  $x/y$ , where  $x$  is the cognitive level (1: Remember, 2: Understand, 3: Apply) at which the attribute is assessed and  $y$  is the academic level (1: Beginner, 2: Intermediate, 3: Advanced) at which the attribute is assessed.

**Topics and Specific Learning Objectives**

**1. Fundamentals of electric circuits**

At the end of this section, students will be able to:

- a. Define voltage, current, and resistance.
- b. Identify nodes and branches in a circuit.
- c. Apply Kirchhoff's and Ohm's laws to simple circuits to calculate voltages and currents.

- d. Understand and apply the passive sign convention and compute the power dissipated by circuit elements.
- e. Apply the voltage and current divider laws to calculate variables in simple series, parallel and series-parallel circuits.
- f. Understand and apply the rules for connecting multimeters to electric circuits for the measurement of resistance, voltage and current.

## 2. DC Resistive Network Analysis

At the end of this section, students will be able to:

- a. Compute voltages and currents in a resistive circuit using nodal analysis.
- b. Compute Thévenin and Norton equivalent circuits.

## 3. AC Network Analysis

At the end of this section, students will be able to:

- a. Compute currents and voltages across capacitors and inductors.
- b. Calculate the average and root-mean-square value of an arbitrary periodic waveform.
- c. Write the differential equations for circuits containing inductors and capacitors.
- d. Convert time-domain sinusoidal voltages and currents to phasor notation, and vice versa, and represent circuits using impedances.
- e. Measure time-varying voltages in a circuit using an oscilloscope and a multimeter.

## 4. Transient Analysis

At the end of this section, students will be able to:

- a. Compute the response of a first-order RC and RL circuit excited by a switched source.
- b. Compute the response of a second-order RLC circuit excited by a switched source.

## 5. Frequency Response and System Concepts

At the end of this section, students will be able to:

- a. Understand the physical significance of frequency domain analysis and compute the frequency response of circuits by using AC circuit analysis techniques.
- b. Analyze simple first- and second-order electrical filters, and determine their frequency responses and filtering properties.

## 6. Operational Amplifiers

At the end of this section, students will be able to:

- a. Describe the properties of ideal amplifiers and the concepts of gain, input impedance, and output impedance.
- b. Understand the difference between open-loop and closed-loop op-amp configurations; and compute the gain of simple inverting, non-inverting, summing and differential amplifiers using ideal op-amp analysis.

## 7. Semiconductors and Diodes

At the end of this section, students will be able to:

- a. Qualitatively understand the basic principles underlying the physics of semiconductor devices in general and of the *pn* junction in particular. Become familiar with the diode equation and *i-v* characteristic.
- b. Use idealized diode models for analysis of circuits.

- c. Describe applications of diodes in half-wave and full-wave rectifier circuits.

## 8. Bipolar Junction Transistors

At the end of this section, students will be able to:

- a. Qualitatively understand the basic principles of amplification.
- b. Qualitatively understand the physical operations of bipolar junction transistors (BJTs).
- c. Select and determine the operating point of a BJT.
- d. Understand the ideal model of the BJT, and apply it to simple amplifier circuits.

## Evaluation

Course Component	Weight
Quizzes	30%
Laboratory	20%
Final Examination	50%

To obtain a passing grade in the course, a mark of 50% or more must be achieved on the final examination as well as on the laboratory. A final examination or laboratory mark < 50% will result in a final course grade of 48% or less.

**Quizzes:** There will be 2 quizzes to ensure that you are keeping up with the material being taught. They will each take place during a tutorial day starting at 4:30 am and ending at 5:30 pm, i.e., each quiz will last 60 minutes. Quiz dates are as follows:

- **Quiz #1:** Tues., Feb. 6, 2018
- **Quiz #2:** Tues., Mar. 13, 2018

Each quiz is worth 15% of your overall grade.

**Laboratory:** There will be 4 laboratory exercises. Each laboratory is designed to be completed during your assigned laboratory session and reports should be submitted to your TA at the end of the session. Laboratory dates are as follows.

Lab. No.	Topic	Dates
1	Breadboards and DC measurements	Mon., Jan. 29, 2018 Tues., Jan. 30, 2018 Wed., Jan. 31, 2018 Thurs., Feb. 1, 2018
2	How to use an oscilloscope and function generator	Mon., Feb. 12, 2018 Tues., Feb. 13, 2018 Wed., Feb. 14, 2018 Thurs., Feb. 15, 2018
3	Interpreting measurements on AC circuits using multimeters	Mon., Mar. 5, 2018 Tues., Mar. 6, 2018 Wed., Mar. 7, 2018 Thurs., Mar. 8, 2018
4	Electronics laboratory	Mon., Mar. 26, 2018 Tues., Mar. 27, 2018 Wed., Mar. 28, 2018 Thurs., Mar. 29, 2018

**Final Examination:** The final examination will be take place during the regular examination period.

**Late Submission Policy:** Laboratory reports must be submitted at the end of your laboratory session and no later.

**Use of English:** In accordance with Senate and Faculty Policy, students may be penalized up to 10% of the marks on all assignments, tests, and examinations for improper use of English. Additionally, poorly written work with the exception of the final examination may be returned without grading. If resubmission of the work is permitted, it may be graded with marks deducted for poor English and/or late submission.

**Attendance:** Any student who, in the opinion of the instructor, is absent too frequently from class, laboratory, or tutorial periods will be reported to the Dean (after due warning has been given). On the recommendation of the department, and with the permission of the Dean, the student will be debarred from taking the regular final examination in the course.

**Absence Due to Illness or Other Circumstances:** Students should immediately consult with the instructor or department Chair if they have any problems that could affect their performance in the course. Where appropriate, the problems should be documented (see the attached “Instructions for Students Unable to Write Tests or Examinations or Submit Assignments as Scheduled”). The student should seek advice from the instructor or department Chair regarding how best to deal with the problem. Failure to notify the instructor or department Chair immediately (or as soon as possible thereafter) will have a negative effect on any appeal.

For more information concerning medical accommodations, see the relevant section of the Academic Handbook:

[http://www.uwo.ca/univsec/pdf/academic\\_policies/appeals/accommodation\\_medical.pdf](http://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_medical.pdf)

For more information concerning accommodations for religious holidays, see the relevant section of the Academic Handbook:

[http://www.uwo.ca/univsec/pdf/academic\\_policies/appeals/accommodation\\_religious.pdf](http://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_religious.pdf)

**Missed Midterm Examinations:** If a student misses a midterm examination, the exam will not be rescheduled. The student must follow the Instructions for Students Unable to Write Tests and provide documentation to their department within 24 hours of the missed test. The department will decide whether to allow the reweighting of the test, where reweighting means the marks normally allotted for the midterm will be added to the final exam. If no reasonable justification for missing the test can be found, then the student will receive a mark of zero for the test.

If a student is going to miss the midterm examination for religious reasons, they must inform the instructor in writing within 48 hours of the announcement of the exam date or they will be required to write the exam.

**Cheating and Plagiarism:** Students must write their essays and assignments in their own words. Whenever students take an idea or a passage from another author, they must acknowledge their

debt both by using quotation marks where appropriate and by proper referencing such as footnotes or citations. University policy states that cheating, including plagiarism, is a scholastic offence. The commission of a scholastic offence is attended by academic penalties, which might include expulsion from the program. If you are caught cheating, there will be no second warning.

All required papers may be subject to submission for textual similarity review to commercial plagiarism-detection software under license to the University for the detection of plagiarism. All papers submitted will be included as source documents on the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between the University of Western Ontario and Turnitin.com (<http://www.turnitin.com>).

Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, in the relevant section of the Academic Handbook:

[http://www.uwo.ca/univsec/pdf/academic\\_policies/appeals/scholastic\\_discipline\\_undergrad.pdf](http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf)

**Use of Electronic Devices:** Electronic devices such as smartphones, tablets and laptops are not permitted in the lecture, tutorial or laboratory sessions. Only non-programmable calculators are permitted during quizzes and the final examination.

**Use of Personal Response Devices (“Clickers”):** Clickers are not required for this course.

**Policy on Repeating All Components of a Course:** Students who are required to repeat an Engineering course must repeat all components of the course. No special permissions will be granted enabling a student to retain laboratory, assignment, or test marks from previous years. Previously completed assignments and laboratories cannot be resubmitted by the student for grading in subsequent years.

**Internet and Electronic Mail:** Students are responsible for regularly checking their Western e-mail and the course web site (<https://owl.uwo.ca/portal/>) and making themselves aware of any information that is posted about the course.

**Accessibility:** Please contact the course instructor if you require material in an alternate format or if any other arrangements can make this course more accessible to you. You may also wish to contact Services for Students with Disabilities (SSD) at 519-661-2111 ext. 82147 for any specific question regarding an accommodation.

**Support Services:** Office of the Registrar, <http://www.registrar.uwo.ca/>  
Student Development Centre, <http://www.sdc.uwo.ca/>  
Engineering Undergraduate Services, <http://www.eng.uwo.ca/undergraduate/>  
USC Student Support Services, <http://westernusc.ca/services/>

Students who are in emotional/mental distress should refer to Mental Health @ Western, [http://www.health.uwo.ca/mental\\_health/](http://www.health.uwo.ca/mental_health/), for a complete list of options about how to obtain help.

**INSTRUCTIONS FOR STUDENTS UNABLE TO WRITE TESTS OR EXAMINATIONS OR SUBMIT ASSIGNMENTS AS SCHEDULED**

IF, ON MEDICAL OR COMPASSIONATE GROUNDS, YOU ARE UNABLE TO WRITE TERM TESTS OR FINAL EXAMINATIONS OR COMPLETE COURSE WORK BY THE DUE DATE, YOU SHOULD FOLLOW THE INSTRUCTIONS LISTED BELOW. YOU SHOULD UNDERSTAND THAT ACADEMIC RELIEF WILL NOT BE GRANTED AUTOMATICALLY ON REQUEST. YOU MUST DEMONSTRATE TO YOUR DEPARTMENT (OR THE UNDERGRADUATE SERVICES OFFICE) THAT THERE ARE COMPELLING MEDICAL OR COMPASSIONATE GROUNDS THAT CAN BE DOCUMENTED BEFORE ACADEMIC RELIEF WILL BE CONSIDERED. DIFFERENT REGULATIONS APPLY TO TERM TESTS, FINAL EXAMINATIONS AND LATE ASSIGNMENTS. PLEASE READ THE INSTRUCTIONS CAREFULLY. (SEE THE 2017 UWO ACADEMIC CALENDAR).

**A. GENERAL REGULATIONS & PROCEDURES**

1. All first year students will report to the Undergraduate Services Office, SEB 2097, for all instances.
2. If you are an upper year student and you are missing a test/assignment/lab or exam that is worth MORE THAN 10% of your final grade, you will report to the Undergraduate Services Office, SEB 2097. Otherwise, you will report to your department office to request relief.
3. Check the course outline to see if the instructor has a policy for missed tests, examinations, late assignments or attendance.
4. Documentation must be provided as soon as possible. If no one is available in your Department office or the Undergraduate Services Office, leave a message clearly stating your name & student number and reason for your call. The department telephone numbers are given at the end of these instructions.
5. If you decide to write a test or an examination you should be prepared to accept the mark you earn. Rewriting tests or examinations or having the value of a test or examination reweighted on a retroactive basis is not permitted.

**B. TERM TESTS**

1. If you are in first year and you are unable to write a term test, contact the Undergraduate Services Office, SEB 2097 PRIOR to the scheduled date of the test.
2. If you are an upper year student and you are unable to write a term test, inform your instructor PRIOR to the scheduled date of the test. If the instructor is not available, leave a message for him/her at the department office. If the test is worth MORE THAN 10% of your final grade you will report to the Undergraduate Services Office, SEB 2097 to request relief. Otherwise, you will report to your department office to request relief.
3. Be prepared to provide supporting documentation to the Department Chair and/or the Undergraduate Services Office (see next page for information on documentation).
4. Discuss with the instructor if and when the test can be rescheduled. **N.B.** The approval of the Chair or the Undergraduate Services Office is required when rescheduling term tests.

**C. FINAL EXAMINATIONS**

1. If you are unable to write a final examination, contact the Undergraduate Services Office PRIOR TO THE SCHEDULED EXAMINATION TIME to request permission to write a Special Final Examination. If no one is available in the Undergraduate Services Office, leave a message clearly stating your name & student number.
2. Be prepared to provide the Undergraduate Services Office with supporting documentation (see next page for information on documentation) the next day, or as soon as possible (in cases where students are hospitalized). The following circumstances are not considered grounds for missing a final examination or requesting special examinations: common cold, sleeping in, misreading timetable and travel arrangements.
3. In order to receive permission to write a Special Examination, you must obtain the approval of the Chair of the Department **and** the Associate Dean and in order to apply you must sign a "Recommendation for a Special Examination Form" available in the Undergraduate Services Office. The Undergraduate Services Office will then notify the course instructor(s) and reschedule the examination on your behalf.

**N.B. It is the student's responsibility to check the date, time and location of the Special Examination.**

**D. LATE ASSIGNMENTS**

1. Advise the instructor if you are having problems completing the assignment on time (**prior** to the due date of the assignment).
2. Be prepared to provide documentation if requested by the instructor (see reverse side for information on documentation).
3. If you are granted an extension, establish a due date. The approval of the Chair of your Department (or the Associate Dean if you are in first year) is not required if assignments will be completed prior to the last day of classes.
4.
  - i) Extensions beyond the end of classes must have the consent of the instructor, the department Chair and the Associate Dean. Documentation is mandatory.
  - ii) A Recommendation of Incomplete Form must be filled out indicating the work to be completed and the date by which it is due. This form must be signed by the student, the instructor, the department Chair and the Associate Dean.

## E. SHORT ABSENCES

If you miss a class due to a minor illness or other problem, check your course outlines for information regarding attendance requirements and make sure you are not missing a test, laboratory or assignment. Cover any readings and arrange to borrow notes from a classmate.

## F. EXTENDED ABSENCES

If you are absent more than one week or if you get too far behind to catch up, you should consider reducing your workload by dropping one or more courses. (Note drop deadlines listed below). You may want to seek advice from the academic counsellor in your Department or Ms. Karen Murray in the Undergraduate Services Office, if you are in first year.

## G. DOCUMENTATION

If you consulted an off-campus doctor or Student Health Services regarding your illness or personal problem, **you must provide the doctor with a Student Medical Certificate** to complete at the time of your visit and then bring it to the Department (or the Undergraduate Services Office). **This note must contain the following information: severity of illness, effect on academic studies and duration of absence. Regular doctor's notes will not be accepted; only the Student Medical Certificate will be accepted.**

**In Case of Serious Illness of a Family Member:** Provide a Student Medical Certificate to your family member's physician to complete and bring it to the Department (or the Undergraduate Services Office if you are in first year).

**In Case of a Death:** Obtain a copy of the death certificate or the notice provided by the funeral director's office. You must include your relationship to the deceased and bring it to the Department (or the Undergraduate Services Office if you are in first year).

**For Other Extenuating Circumstances:** If you are not sure what documentation to provide, ask the Departmental Office (or the Undergraduate Services Office if you are in first year) for direction.

**Note:** Forged notes and certificates will be dealt with severely. To submit a forged document is a scholastic offence (see below).

## H. ACADEMIC CONCERNS

1. You need to know if your instructors have a policy on late penalties, missed tests, etc. This information may be included on the course outlines. If not, ask your instructor(s).
2. **You should also be aware of attendance requirements in some courses. You can be debarred from writing the final examination if your attendance is not satisfactory.**
3. If you are in academic difficulty, check out the minimum requirements for progression in the calendar. If in doubt, see your academic counsellor.

**Calendar References:** Check these regulations in your 2017 Western Academic Calendar available at [www.westerncalendar.uwo.ca](http://www.westerncalendar.uwo.ca).

**Note:** These instructions apply to all students registered in the Faculty of Engineering regardless of whether the courses are offered by the Faculty of Engineering or other faculties in the University.

### **Drop Deadlines:**

First term half course (i.e. "A" or "F"):	November 5, 2017
Full courses and full-year half courses (i.e. "E", "Y" or no suffix):	November 30, 2017
Second term half or second term full course (i.e. "B" or "G"):	March 7, 2017
