Description:
This course is an introduction to concepts associated with the wireless transmission and reception of analog modulated signals. It provides sufficient background in theory, devices, and circuits employed in radio communication systems, which enables the students to design, build and test basic communication circuitry. In particular, this course introduces fundamental principles of wireless RF communications, AM, FM, and PM modulation, demodulation and spectra, and frequency shifting and mixing. Practical linear and nonlinear circuits for a heterodyne radio receiver are studied, including RF/IF amplifiers, matching networks, oscillators, mixers, modulators, and demodulators.

Instructor:  Dr. Robert Sobot, TEB249, 519-661-2111 ext. 88428, rsobot@uwo.ca, http://publish.uwo.ca/~rsobot
Consultation hours: To be announced on the course website after the first lecture, (https://instruct.uwo.ca/engin-sc/ece370a/), Western login and password needed.

Academic Calendar Copy: http://www.westerncalendar.uwo.ca/2013/pg906.html#34425
Contact Hours: 3 lecture hours, 1.5 laboratory hours, 1 tutorial hours, 0.5 course.
Antirequisite:
Prerequisites: ECE2231A/B, ECE2233A/B, ECE3337A/B
Co-requisite:
Unless you have either the requisites for this course or written special permission from your Dean to enroll in it, you will be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

CEAB Academic Units: Engineering Science 34%, Engineering Design 66%.

Notation: x/y, where x is the cognitive level (1: Remember, 2: Understand, 3: Apply) at which the attribute is assessed and y is the academic level (1: Beginner, 2: Intermediate, 3: Advanced) at which the attribute is assessed.

Topics and Specific Learning Objectives

1. **Topic 1: Wireless Communication Principles**
   At the end of this section, students will be able to:
   a. Understand physical and engineering principles behind wireless communication systems.
   b. Design and test an RF amplifier with the antenna matching network.

2. **Topic 2: RF Oscillators**
   At the end of this section, students will be able to:
   a. Understand theoretical principles behind oscillations and the resonance.
   b. Design and test functionality of an RF oscillator.

3. **Topic 3: Frequency Shifting**
   At the end of this section, students will be able to:
   a. Understand theoretical principles behind frequency shifting.
   b. Design and test functionality of an AM mixer.
4. **Topic 4: Analogue Signal Modulation**  
   At the end of this section, students will be able to:  
   - a. Understand theoretical principles behind AM/FM/PM signal modulation.  
   - b. Design and test functionality of an AM modulator.

5. **Topic 5: Analogue Signal Demodulation**  
   At the end of this section, students will be able to:  
   - a. Analyze electronic circuits for AM/FM signal demodulation  
   - b. Design and test functionality of an AM demodulator.

6. **Topic 6: RF Receivers**  
   At the end of this section, students will be able to:  
   - a. Synthesize and analyze complete wireless communication system.  
   - b. Design a fully functional AM receiver and test its main specifications.

**Evaluation**

<table>
<thead>
<tr>

<td>In-Class Tests</td>
<td>25%</td>
</tr>
<tr>
<td>Laboratory</td>
<td>25%</td>
</tr>
<tr>
<td>Final Examination</td>
<td>50%</td>
</tr>
</tbody>
</table>

To obtain a passing grade in the course, a mark of 50% or more must be achieved on the final examination as well as on the laboratory. A final examination and/or laboratory mark < 50% will result in a final course grade of 48% or less.

**Laboratory:**  
There will be six laboratory units throughout the course. Detailed laboratory schedule and marking scheme will be announced on the course website (https://instruct.uwo.ca/engin-sc/ece370a/) after the first lecture. In order to secure 50% of the overall laboratory component mark, the student must participate in all six laboratory units as scheduled. In order to be marked for the current laboratory experiment, at the end of each laboratory session the students are required to submit signed laboratory report sheets to the TAs.

**In-Class Test:**  
There will be five in-class tests that will take place instead of one of the regular one-hour lectures. The test dates will be announced on the course website (https://instruct.uwo.ca/engin-sc/ece370a/) after the first lecture.
Final Examination:
The final examination will take place during the regular examination period.

Late Submission Policy:
All assignments/reports submissions are by email only. The students should use only the official Western email address, the use of any external private email address is not permitted. All submissions must be emailed no later than 5:00pm on the respective due date, as shown by the email’s timestamp. Late emails will not be accepted and the respective submission will be marked as zero.

Assignment Submission Locker:
Only softcopy of the assignments/reports will be accepted, thus the assignment submission locker is not checked.

Use of English: In accordance with Senate and Faculty Policy, students may be penalized up to 10% of the marks on all assignments, tests, and examinations for improper use of English. Additionally, poorly written work with the exception of the final examination may be returned without grading. If resubmission of the work is permitted, it may be graded with marks deducted for poor English and/or late submission.

Attendance: Any student who, in the opinion of the instructor, is absent too frequently from class, laboratory, or tutorial periods will be reported to the Dean (after due warning has been given). On the recommendation of the department, and with the permission of the Dean, the student will be debarred from taking the regular final examination in the course.

Absence Due to Illness or Other Circumstances: Students should immediately consult with the instructor or department Chair if they have any problems that could affect their performance in the course. Where appropriate, the problems should be documented (see the attached “Instructions for Students Unable to Write Tests or Examinations or Submit Assignments as Scheduled”). The student should seek advice from the instructor or department Chair regarding how best to deal with the problem. Failure to notify the instructor or department Chair immediately (or as soon as possible thereafter) will have a negative effect on any appeal.

For more information concerning medical accommodations, see the relevant section of the Academic Handbook:
http://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_medical.pdf

For more information concerning accommodations for religious holidays, see the relevant section of the Academic Handbook:
http://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_religious.pdf

Missed Final Examination: the student must follow the Instructions for Students Unable to Write Tests and should immediately consult with the Undergraduate Office.
**Missed Laboratory Unit:** If a student misses a laboratory unit, the student must follow the Instructions for Students Unable to Write Tests and provide documentation to their department within 24 hours of the missed unit. The department will decide whether to allow the rescheduling of the laboratory unit. If no reasonable justification for missing the laboratory unit can be found, then the student will receive a mark of zero for the laboratory unit.

If a student is going to miss the laboratory unit for religious reasons, the student must inform the instructor in writing within 48 hours of the announcement of the laboratory schedule, or the student will receive a mark of zero for the laboratory unit.

**Missed In-Class Test:** If a student misses an in-class test, the test will not be rescheduled. The student must follow the Instructions for Students Unable to Write Tests and provide documentation to their department within 24 hours of the missed test. The department will decide whether to allow the reweighting of the test, where reweighting means the marks normally allotted for the test will be assigned after the final exam (i.e. mark for the missed test will be as same as the percentage mark achieved in the final exam). If no reasonable justification for missing the test can be found, then the student will receive a mark of zero for the test.

If a student is going to miss the in-class test for religious reasons, the student must inform the instructor in writing within 48 hours of the announcement of the exam date or the student will be required to write the test.

**Cheating and Plagiarism:** Students must write their essays and assignments in their own words. Whenever students take an idea or a passage from another author, they must acknowledge their debt both by using quotation marks where appropriate and by proper referencing such as footnotes or citations. University policy states that cheating, including plagiarism, is a scholastic offence. The commission of a scholastic offence is attended by academic penalties, which might include expulsion from the program. If you are caught cheating, there will be no second warning.

All required papers may be subject to submission for textual similarity review to commercial plagiarism-detection software under license to the University for the detection of plagiarism. All papers submitted will be included as source documents on the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between the University of Western Ontario and Turnitin.com (http://www.turnitin.com).

Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, in the relevant section of the Academic Handbook:
http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf

**Use of Electronic Devices:**
In-class/ use of electronic devices, i.e., laptops, iPods, … is strongly discouraged, while the use of headphones and/or phones is not permitted. Any student who, in the opinion of the instructor,
is too much distracted by the electronic devices may be asked to leave the current lecture and/or reported to the Dean. In the case of repeated behaviour, on the recommendation of the department, and with the permission of the Dean, the student will be debarred from taking the regular final examination in the course.

During exams/tests/quizzes all electronic devices must be powered down and stored out of reach. The only exception is a simple scientific calculator (including models similar to HP 48g), which is permitted. Other devices capable of substituting for a simple calculator, (e.g. a phone, laptop, iPad), are not permitted.

Use of Personal Response Devices (“Clickers”): Clickers are not used in this course.

Policy on Repeating All Components of a Course: Students who are required to repeat an Engineering course must repeat all components of the course. No special permissions will be granted enabling a student to retain laboratory, assignment, or test marks from previous years. Previously completed assignments and laboratories cannot be resubmitted by the student for grading in subsequent years.

Internet and Electronic Mail: Students are responsible for regularly checking their Western email and the course web site (https://instruct.uwo.ca/engin-sc/ece370a/) and making themselves aware of any information that is posted about the course.

Accessibility: Please contact the course instructor if you require material in an alternate format or if any other arrangements can make this course more accessible to you. You may also wish to contact Services for Students with Disabilities (SSD) at 519-661-2111 ext. 82147 for any specific question regarding an accommodation.

Student Development Centre, http://www.sdc.uwo.ca/
Engineering Undergraduate Services, http://www.eng.uwo.ca/undergraduate/
USC Student Support Services, http://westernusc.ca/services/

Students who are in emotional/mental distress should refer to Mental Health @ Western, http://www.health.uwo.ca/mental_health/, for a complete list of options about how to obtain help.
If, on medical or compassionate grounds, you are unable to write term tests or final examinations or complete course work by the due date, you should follow the instructions listed below. You should understand that academic accommodation will not be granted automatically on request. You must demonstrate to your department (or the Undergraduate Services Office if you are in first year) that there are compelling medical or compassionate grounds that can be documented before academic accommodation will be considered. Different regulations apply to term tests, final examinations and late assignments. Read the instructions carefully. (See the 2013 UWO Academic Calendar).

A. GENERAL REGULATIONS & PROCEDURES

1. Check the course outline to see if the instructor has a policy for missed tests, examinations, late assignments or attendance.

2. Bring your request for academic accommodation to the attention of the Chair of your department (or the Undergraduate Services Office if you are in first year) prior to the scheduled time of the test or final examination or due date of the assignment. If you are unable to contact the relevant person, leave a message with the appropriate department (or with the Undergraduate Services Office, if you are in first year). The addresses, telephone and fax numbers are given at the end of these instructions. Documentation must be provided as soon as possible.

3. If you decide to write a test or an examination you should be prepared to accept the mark you earn. Rewriting tests or examinations or having the value of a test or examination reweighted on a retroactive basis is not permitted.

B. TERM TESTS

1. If you are unable to write a term test, inform your instructor and the Chair of your Department (or the Undergraduate Services Office if you are in first year) prior to the scheduled date of the test. If the instructor is not available, leave a message for him/her at the department office and inform the Chair of the Department (or the Undergraduate Services Office if you are in first year).

2. Be prepared to provide supporting documentation to the Chair and the Undergraduate Services Office (see next page for information on documentation).

3. Discuss with the instructor if and when the test can be rescheduled.

   N.B. The approval of the Chair (or the Undergraduate Services Office if you are in first year) is required when rescheduling term tests.

C. FINAL EXAMINATIONS

1. If you are unable to write a final examination, contact the Undergraduate Services Office prior to the scheduled examination time to request permission to write a Special Final Examination. If no one is available in the Undergraduate Services Office, leave a message clearly stating your name & student number (please spell your full name).

2. Be prepared to provide the Undergraduate Services Office with supporting documentation (see next page for information on documentation) the next day, or as soon as possible (in cases where students are hospitalized). The following circumstances are not considered grounds for missing a final examination or requesting special examinations: common cold, sleeping in, misreading timetable and travel arrangements.

3. In order to receive permission to write a special examination, you must obtain the approval of the Chair of the Department and the Associate Dean and in order to apply you must sign a “Recommendation for a Special Examination Form” available in the Undergraduate Services Office. The Undergraduate Services Office will then notify the course instructor(s) and reschedule the examination on your behalf.

   N.B. It is the student’s responsibility to check the date, time and location of the special examination.

D. LATE ASSIGNMENTS

1. Advise the instructor if you are having problems completing the assignment on time (prior to the due date of the assignment).

2. Be prepared to provide documentation if requested by the instructor (see reverse side for information on documentation).

3. If you are granted an extension, establish a due date. The approval of the Chair of your Department (or the Associate Dean if you are in first year) is not required if assignments will be completed prior to the last day of classes.

4. i) Extensions beyond the end of classes must have the consent of the instructor, the department Chair and the Associate Dean. Documentation is mandatory.
ii) A Recommendation of Incomplete Form must be filled out indicating the work to be completed and the date by which it is due. This form must be signed by the student, the instructor, the department Chair and the Associate Dean.

**SHORT ABSENCES**

If you miss a class due to a minor illness or other problems, check your course outlines for information regarding attendance requirements and make sure you are not missing a test or assignment. Cover any readings and arrange to borrow notes from a classmate.

**EXTENDED ABSENCES**

If you are absent more than one week or if you get too far behind to catch up, you should consider reducing your workload by dropping one or more courses. (Note drop deadlines listed below). You may want to seek advice from the academic counsellor in your Department or the counsellors in the Undergraduate Services Office if you are in first year.

**DOCUMENTATION**

If you consulted an off-campus doctor or Student Health Services regarding your illness or personal problem, you must provide the doctor with a Student Medical Certificate to complete at the time of your visit and then bring it to the Department (or the Undergraduate Services Office if you are in first year). **This note must contain the following information:** severity of illness, effect on academic studies and duration of absence.

**In Case of Serious Illness of a Family Member:** Provide a Student Medical Certificate to your family member's physician to complete and bring it to the Department (or the Undergraduate Services Office if you are in first year).

**In Case of a Death:** Obtain a copy of the death certificate or the notice provided by the funeral director's office. You must include your relationship to the deceased and bring it to the Department (or the Undergraduate Services Office if you are in first year).

**For Other Extenuating Circumstances:** If you are not sure what documentation to provide, ask the Departmental Office (or the Undergraduate Services Office if you are in first year) for direction.

**Note:** Forged notes and certificates will be dealt with severely. To submit a forged document is a scholastic offence (see below).

**ACADEMIC CONCERNS**

You need to know if your instructors have a policy on late penalties, missed tests, etc. This information may be included on the course outlines. If not, ask your instructor(s).

You should also be aware of attendance requirements in some courses. You can be debarred from writing the final examination if your attendance is not satisfactory.

If you are in academic difficulty, check out the minimum requirements for progression in the calendar. If in doubt, see your academic counsellor.
