

Best Student Paper Award

Doctoral Candidate, **Mr. Quan Wang** (under supervision of **Dr. Jin Jiang**) from the Department of Electrical and Computer Engineering has won the best student paper award at the International Symposium on Future I&C for Nuclear Power Plants (ISOFIC). The conference was held in Jeju Island, Republic of Korea, from August 24th to 28th, 2014.

The paper, "Experimental Evaluation of Wireless Communication Channels under Radiation Environment" presents some interesting findings related to the change in characteristics of communication channels under strong radiation conditions, similar to those after a severe accident in a nuclear power plant. The conference is considered to be one of the prime meetings for the gathering of experts in the field of instrumentation and control for nuclear power plants around the world.
