III	AISE 2251B	Software Design for Systems Engineering	CEE 2219B	Computation Tools for Civil Engineers	CEE 2221B	Structural Theory and Design	SS 2143B	Applied Probability and Statistics for Engineers	CEE 2226b	Fluid Mechanics for Civil Engineers	DS 3000A	Introduction to Machine Learning	AISE 3309A	Database Management Systems	AISE 3350A	Cyber-Physical Systems Theory	CEE 3348A	Project Management & Engineering Cases	CEE 4401A	Introduction to Transportation	Two 0.5 non-technical electives		AISE 3010B	Data Engineering and Machine Learning	AISE 3351B	Digital Systems and Signal Processing	Earth Sc.2281B	Geology for Engineers	CEE 4412B	Intelligent Transportation Systems	Writing 2130g	Building Better (Communication) Bridges: Rhetoric & Professional Communication for Engineers	AISE 4010A	Deep Learning for Time Series Data	AISE 4430A	Introduction to Computer Networking, Security & IOT Systems	CEE 3321A	Soil Mechanics & Hydrogeologic Engineering	CEE 3340A	Analysis of Indeterminate Structures	CEE 3347A	Reinforced Concrete Design	CEE 3369A	Materials for Civil Engineering	CEE 3322B	Introduction to Geotechnical Engineering	CEE 3343B	Finite Element Methods & Application to Lateral Analysis of Buildings	CEE 3344B	Structural Dynamics I	CEE 3346B	Steel Design	CEE 3358B	Reinforced & Prestressed Concrete Design	AISE 4020B	Artificial Intelligence Systems Engineering Design I	<p><b>NOTES:</b></p> <p>Note: CEE 3324a (Surveying). Offered each August (10 days) and must be completed before a student may graduate.</p> <p><b>Important:</b></p> <p>Students are responsible for ensuring they have the correct courses required for their degree. If you are unsure which courses you still need or if you see courses listed on the progression sheet that are no longer offered or are not offered in the term you see listed here, please contact your Academic Counsellor.</p> <p><b>*Non-technical Electives:</b></p> <p>Please choose a maximum of 1.0 credits (one 1.0 credit course or two 0.5 credit courses) from the 1000 level and a minimum of one 0.5 credit from the 2000 (or higher) level.</p> <p><a href="http://www.eng.uwo.ca/undergraduate/upper-year/electives.html">http://www.eng.uwo.ca/undergraduate/upper-year/electives.html</a></p> <p><b>Technical Electives:</b></p> <p>** AISE technical electives</p> <ul style="list-style-type: none"> <li>- refer to a list of AI-based technical courses approved by the AISE program committee. The list consists of AI-based courses offered by the Faculty of Engineering and Faculty of Science at Western. The list will be updated every year.</li> </ul> <p>Some technical electives may not be offered in a given academic year. Consult the Department for accurate listing.</p> <p><b>CEE Technical Electives</b></p> <table border="1"> <tr><td>CEE 3355A/B</td><td>Municipal Engineering Design</td></tr> <tr><td>CEE 4414 A/B</td><td>Machine Learning for Water Resources</td></tr> <tr><td>CEE 4417A/B</td><td>Smart Buildings</td></tr> <tr><td>CEE 4428A/B</td><td>Selected Topics in Civil Engineering I</td></tr> <tr><td>CEE 4429A/B</td><td>Selected Topics in Civil Engineering II</td></tr> <tr><td>CEE 4438A/B</td><td>Introduction to Wood Design</td></tr> <tr><td>CEE 4440</td><td>Civil Engineering Thesis (full year course - count as two technical electives)</td></tr> <tr><td>CEE 4458A/B</td><td>Risk Analysis and Decision Making in Engineering</td></tr> <tr><td>CEE 4459A/B</td><td>Design of Lateral Load Structural Systems</td></tr> <tr><td>CEE 4465A/B</td><td>Environmental Design for Waste Disposal</td></tr> <tr><td>CEE 4476A/B</td><td>Environmental Hydraulics Design</td></tr> <tr><td>CEE 4480A/B</td><td>Wind Engineering: Modelling, Assessment and Mitigation</td></tr> <tr><td>CEE 4485A/B</td><td>Cities: Resilience and Sustainability</td></tr> <tr><td>Earth Sc. 3340A/B</td><td>Watershed Hydrology</td></tr> <tr><td>Earth Sc. 4440A/B</td><td>Hydrogeology: Principles, Processes, and Professional Practice</td></tr> </table>	CEE 3355A/B	Municipal Engineering Design	CEE 4414 A/B	Machine Learning for Water Resources	CEE 4417A/B	Smart Buildings	CEE 4428A/B	Selected Topics in Civil Engineering I	CEE 4429A/B	Selected Topics in Civil Engineering II	CEE 4438A/B	Introduction to Wood Design	CEE 4440	Civil Engineering Thesis (full year course - count as two technical electives)	CEE 4458A/B	Risk Analysis and Decision Making in Engineering	CEE 4459A/B	Design of Lateral Load Structural Systems	CEE 4465A/B	Environmental Design for Waste Disposal	CEE 4476A/B	Environmental Hydraulics Design	CEE 4480A/B	Wind Engineering: Modelling, Assessment and Mitigation	CEE 4485A/B	Cities: Resilience and Sustainability	Earth Sc. 3340A/B	Watershed Hydrology	Earth Sc. 4440A/B	Hydrogeology: Principles, Processes, and Professional Practice
NMM 2270A	Applied Math for Engineering II																																																																																																				
AISE 2205A	Algorithms & Data Structure for Object-Oriented Design																																																																																																				
CEE 2202A	Mechanics of Materials																																																																																																				
CEE 2217A	Introduction to Environmental Engineering																																																																																																				
CEE 2220A	Introduction to Structural Engineering																																																																																																				
CEE 2225a	Fundamentals of Fluid Mechanics																																																																																																				
NMM 2277B	Applied Mathematics for Chem & Civil Eng. III																																																																																																				
AISE 2251B	Software Design for Systems Engineering																																																																																																				
CEE 2219B	Computation Tools for Civil Engineers																																																																																																				
CEE 2221B	Structural Theory and Design																																																																																																				
SS 2143B	Applied Probability and Statistics for Engineers																																																																																																				
CEE 2226b	Fluid Mechanics for Civil Engineers																																																																																																				
DS 3000A	Introduction to Machine Learning																																																																																																				
AISE 3309A	Database Management Systems																																																																																																				
AISE 3350A	Cyber-Physical Systems Theory																																																																																																				
CEE 3348A	Project Management & Engineering Cases																																																																																																				
CEE 4401A	Introduction to Transportation																																																																																																				
Two 0.5 non-technical electives																																																																																																					
AISE 3010B	Data Engineering and Machine Learning																																																																																																				
AISE 3351B	Digital Systems and Signal Processing																																																																																																				
Earth Sc.2281B	Geology for Engineers																																																																																																				
CEE 4412B	Intelligent Transportation Systems																																																																																																				
Writing 2130g	Building Better (Communication) Bridges: Rhetoric & Professional Communication for Engineers																																																																																																				
AISE 4010A	Deep Learning for Time Series Data																																																																																																				
AISE 4430A	Introduction to Computer Networking, Security & IOT Systems																																																																																																				
CEE 3321A	Soil Mechanics & Hydrogeologic Engineering																																																																																																				
CEE 3340A	Analysis of Indeterminate Structures																																																																																																				
CEE 3347A	Reinforced Concrete Design																																																																																																				
CEE 3369A	Materials for Civil Engineering																																																																																																				
CEE 3322B	Introduction to Geotechnical Engineering																																																																																																				
CEE 3343B	Finite Element Methods & Application to Lateral Analysis of Buildings																																																																																																				
CEE 3344B	Structural Dynamics I																																																																																																				
CEE 3346B	Steel Design																																																																																																				
CEE 3358B	Reinforced & Prestressed Concrete Design																																																																																																				
AISE 4020B	Artificial Intelligence Systems Engineering Design I																																																																																																				
CEE 3355A/B	Municipal Engineering Design																																																																																																				
CEE 4414 A/B	Machine Learning for Water Resources																																																																																																				
CEE 4417A/B	Smart Buildings																																																																																																				
CEE 4428A/B	Selected Topics in Civil Engineering I																																																																																																				
CEE 4429A/B	Selected Topics in Civil Engineering II																																																																																																				
CEE 4438A/B	Introduction to Wood Design																																																																																																				
CEE 4440	Civil Engineering Thesis (full year course - count as two technical electives)																																																																																																				
CEE 4458A/B	Risk Analysis and Decision Making in Engineering																																																																																																				
CEE 4459A/B	Design of Lateral Load Structural Systems																																																																																																				
CEE 4465A/B	Environmental Design for Waste Disposal																																																																																																				
CEE 4476A/B	Environmental Hydraulics Design																																																																																																				
CEE 4480A/B	Wind Engineering: Modelling, Assessment and Mitigation																																																																																																				
CEE 4485A/B	Cities: Resilience and Sustainability																																																																																																				
Earth Sc. 3340A/B	Watershed Hydrology																																																																																																				
Earth Sc. 4440A/B	Hydrogeology: Principles, Processes, and Professional Practice																																																																																																				

**Year 5:**

**Term A**

CEE 4441	Civil Engineering Design Project
AISE 4450A	Data Driven Control of Cyber-Physical Systems
AISE 3020A	AI: Ethics, Bias and Privacy
CEE 4491A	Structural Dynamics II
CEE 4426A	Geotechnical Engineering Design
One 0.5 non-technical elective	

**Term B**

CEE 4415B	Structural Health Monitoring
CEE 4478b	Case Studies in Civil Engineering
ELI 4110G	Engineering Ethics, Sustainable Development and the Law
CEE 4441	Civil Engineering Design Project
CEE 4413B	Building Information Modelling
One 0.5 technical elective
