Postdoctoral Associate Position Opportunity

Department: Electrical & Computer Engineering
Supervisor: Gerry Moschopoulos

Description of Research and Position:
Postdoc researcher is needed to assist in research that is related to DC-DC converters (especially three-phase DC-DC converters) and inverters.

Accountabilities of the Role:
The researcher will be responsible for simulation and experimental work that is related to the research. Such work includes the building of proof-of-concept prototypes, the analysis and design of new power electronic converter topologies, magnetic design. The researcher will also be tasked with assisting in the dissemination of the result results and the mentoring of younger researchers.

Educational Requirements necessary for the Role:
Applicant must have a Ph.D degree in power electronics and expertise in the topic areas described above.

Number of Opportunities: 1
Proposed Start Date: 02/01/2020
Length of Appointment: 1 year
Please note that the length of appointment may change.

How to Apply:
E-mail Dr. Gerry Moschopoulos at gmoschop@uwo.ca

Posting Expires: Jan 8, 2020
Note: Postings must be publicly available for a minimum of 10 days.
