

MME 3325a – Mechanical Vibrations

COURSE OUTLINE – 2021-22

CALENDAR DESCRIPTION:	Free and forced vibration of single-degree-of-freedom systems; viscous and coulomb damping; vibration isolation and vibration measuring instruments; modelling of multi-degree-of-freedom systems via Newton's second law; modal analysis and modal summation method for response predictions of multi-degree-of-freedom systems; tuned mass vibration absorber; introduction to vibration of continuous systems; introduction to spectrum analysis for machinery diagnostics.
COURSE INFORMATION	Instructor: Dr. Liying Jiang Room CMLP 1306 Email: ljiang55@uwo.ca Lectures: M 12:30pm-1:30pm (SEB 2202), W 12:30pm-1:30pm (SEB 2202), F : 2:30pm-3:30pm (SEB 2202) Tutorials: F 9:30am-11:30 am (UCC 37) Laboratories: SEB 3101
PREREQUISITES:	AM 2270a, AM 2276b, and MME 2213b Unless you have either the requisites for this course or written special permission from your Dean to enroll in it, you will be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.
ACCREDITATION:	Engineering Science = 85%, Engineering Design = 15%
UNITS:	SI
TOPICS:	<ul style="list-style-type: none">• Free/forced vibration of single-degree-of-freedom systems• Viscous and Coulomb damping• Harmonic excitation and transient vibration• Vibration measurement device and design• Motion equations and response prediction for multiple-degree-of-freedom systems and continuous systems• Design for vibration suppression• Spectrum analysis for vibration
LEARNING OUTCOMES:	Upon successful completion of this course, students will be able to <ul style="list-style-type: none">• Describe a dynamic system by establishing mathematical models, deriving and solving governing equations, and interpreting results. (PA1, ET2)• Conduct vibration analysis for a variety of discrete and continuous systems induced by various inputs (harmonic excitation, impulse excitation, base excitation, unbalance rotation) both analytically and numerically. (PA1, ET2)• Make design recommendation for vibration suppression of mechanical systems to improve performance via vibration isolators and vibration absorbers. (PA1, IESE1)

- Conduct vibration measurements and perform spectrum analysis. (PA1, ET2)

*The letters in brackets refer to relevant graduate attributes defined by the CEAB.

CONTACT HOURS: 3 lecture hours, 2 tutorial hours, 0.5 laboratory hour, half course

TEXT: “Engineering Vibrations” by D. J. Inman, 4th Edition, PEARSON. ISBN 0-13-287169-6

REFERENCES: “Fundamentals of Mechanical Vibration” by S. Graham Kelly, McGraw-Hill, 2nd Edition
 “Mechanical Vibrations” by S. S. Rao, Addison Wesley, SI Edition, Prentice Hall
 “Shock and Vibration Handbook” by C. M. Harris, McGraw-Hill, 5th Edition

TUTORIALS: Students are expected to attempt relevant questions from the text and discuss in the tutorial periods. The teaching assistant will present numerical solutions for some examples.

EXAMINATIONS Two 2 hour closed book term tests
 3 hour closed book final exam

UNITS: SI units will be used

EVALUATION: The final grade is computed as follows:

Assignments	10%
Term Test 1	15%
Term Test 2	15%
Hands-on Laboratory – Two group laboratory sessions for the semester	5%
Final Examination	55%

Assignments, term tests and laboratories will be carried out according to the following tentative schedule:

Evaluation Format	Weight	Effort Type	Assigned	Due
Assign 1	1%	Individual	The week of Sept 6	The week of Sept 20
Assign 2	1%	Individual	The week of Sept 20	The week of Oct 4
Assign 3	1%	Individual	The week of Oct 4	The week of Oct 18
Assign 4	1%	Individual	The week of Oct 18	The week of Nov 8
Assign 5	5%	Individual	The week of Nov 8	The week of Nov 15
Assign 6	1%	Individual	The week of Nov 15	The week of Dec 6
Lab 1	2.5%	Team	The week of Sept 27	The week of Oct 4
Lab 2	2.5%	Team	The week of Nov 15	The week of Nov 22
Term test 1	15%	Individual	Oct 8	Oct 8
Term test 2	15%	Individual	Nov 12	Nov 12

COURSE POLICY: Due to the nature and structure of evaluation in this course, it is exempt from the 15% policy. This means that you will not have received 15% of your grade prior to the course drop deadline. If you have any concerns about your progress in this course, at any point, I encourage you to speak with me directly.

Assignments

- Late submission of assignment will receive a grade with 50% deduction of the mark received for that assignment.
- Missing an assignment without academic consideration will translate into a zero mark for that assignment.
- Missing Assignment 5 with academic consideration must submit this assignment within one week of the due time. Otherwise, a zero mark will be assigned for this assignment.
- Missing an assignment with academic consideration will automatically shift the weight of the missed assignment into the completed assignments (Only applicable to Assignments 1, 2, 3, 4, 6).

Laboratory sessions

- Students who arrive 15 min after the scheduled lab time will receive a grade with 50% deduction of the mark received for that lab session;
- Missing a lab without academic consideration will result in a zero mark for that lab;
- Late submission of lab report will receive a grade with 50% deduction of the mark received for that lab session;
- Students who miss a lab with academic consideration are required to reschedule the lab by contacting the course instructor no later than 2 days after that lab. Failure to do so will result in a zero mark for that lab.

Term tests

- No make-up options for term tests will be offered regardless of the circumstances for which the term test was missed;
- Missing the term test without academic consideration will result in a zero mark for that test;
- Missing the term test with academic consideration will automatically shift the weight of the missed term test into the final exam;
- Examination will be CLOSED BOOK with only non-programmable calculators permitted.

Final exam

- If a minimum of 50% is not obtained on the final examination, the student cannot receive a final mark greater than 48% for the course;
- Examination will be CLOSED BOOK with only non-programmable calculators permitted.

-
- ENGLISH:** In accordance with Senate and Faculty Policy, students may be penalized up to 10% of the marks on all assignments, tests and examinations for improper use of English. Additionally, poorly written work, with the exception of final examinations, may be returned without grading. If resubmission of the work is permitted, it may be graded with marks deducted for poor English and/or late submission.
- CONSULTATION:** Tu 1:30pm-3:30pm
- ATTENDANCE:** Any student, who, in the opinion of the instructor, is absent too frequently from class or laboratory periods in any course, will be reported to the Dean (after due warning has been given). On the recommendation of the Department concerned, and with the permission of the Dean, the student will be debarred from taking the regular examination in the course.
- SSD:** *Please contact the course instructor if you require material in an alternate format or if any other arrangements can make this course more accessible to you. You may also wish to contact Services for Students with Disabilities (SSD) at 661-2111 x 82147 for any specific question regarding an accommodation.*
- CHEATING:** University policy states that cheating, including plagiarism, is a scholastic offense. The commission of a scholastic offence is attended by academic penalties, which might include expulsion from the program. If you are caught cheating, there will be no second warning.
- NOTE:** The above topics and outline are subject to adjustments and changes as needed. Students who have failed an Engineering course (ie.<50%) must repeat all components of the course. No special permissions will be granted enabling a student to retain laboratory, assignment or test marks from previous years. Previously completed assignments and laboratories cannot be resubmitted for grading by the student in subsequent years.

INSTRUCTIONS FOR STUDENTS UNABLE TO WRITE TESTS OR EXAMINATIONS OR SUBMIT ASSIGNMENTS AS SCHEDULED

If, on medical or compassionate grounds, you are unable to write term tests or final examinations or complete course work by the due date, you should follow the instructions listed below. You should understand that academic relief will not be granted automatically on request. You must demonstrate to your department (or the Undergraduate Services Office) that there are compelling medical or compassionate grounds that can be documented before academic relief will be considered. Different regulations apply to term tests, final examinations and late assignments. Please read the instructions carefully.

NEW: Requests for Academic Consideration using the Self-Reported Absence Form

If you experience an unexpected illness or injury or an extenuating circumstance (48 hours or less) that is sufficiently severe to temporarily render you unable to meet academic requirements (e.g., attending lectures or labs, writing tests or midterm exams, completing and submitting assignments, participating in presentations) you should self-declare using the online Self-Reported Absence portal. This option should be used in situations where you expect to resume academic responsibilities within 48 hours or less.

Each student will be allowed a maximum of two self-reported absences between September and April and one self-reported absence between May and August. Self-reporting may not be used for final exams or assessments (e.g. midterm exams, tests, reports, presentations, or essays) worth more than 30% of any given course.

For full instructions about the Self-Reporting System refer to the Academic Calendar link [here](#).

A. GENERAL REGULATIONS & PROCEDURES (other than self-reported absences)

1. All first year students will report to the Undergraduate Services Office, SEB 2097, for all instances.
2. If you are an upper year student and you are missing a test/assignment/lab or examination that is worth LESS THAN 10% of your mark, you should report to your department office to request relief. If your course work is worth MORE THAN 10% of your final grade, you will report to the Undergraduate Services Office, SEB 2097.
3. Check the course outline to see if the instructor has a policy for missed tests, examinations, late assignments or attendance.
4. Documentation must be provided as soon as possible. If no one is available in your department office or the Undergraduate Services Office, leave a message clearly stating your name & student number and reason for your call. The department telephone numbers are given at the end of these instructions.
5. If you decide to write a test or an examination you should be prepared to accept the mark you earn. Rewriting tests or examinations or having the value of a test or examination reweighted on a retroactive basis is not permitted.

B. TERM/MIDTERM TESTS (other than self-reported absences)

1. If you are in first year and you are unable to write a midterm/term test, contact the Undergraduate Services Office, SEB 2097 PRIOR to the scheduled date of the test.
2. If you are an upper year student and you are unable to write a midterm/term test, inform your instructor PRIOR to the scheduled date of the test. If the instructor is not available, leave a message for him/her at the department office. If the test is worth LESS THAN 10% of your mark, you should report to your department office to request relief. If the test is worth MORE THAN 10% of your final grade you will report to the Undergraduate Services Office, SEB 2097 to request relief.
3. Be prepared to provide supporting documentation to the Department Chair and/or the Undergraduate Services Office (see next page for information on documentation).
4. Discuss with the instructor if and when the test can be rescheduled. **N.B.** The approval of the Chair or the Undergraduate Services Office is required when rescheduling midterm/term tests.

C. FINAL EXAMINATIONS (cannot be self-reported)

1. If you are unable to write a final examination, contact the Undergraduate Services Office **PRIOR TO THE SCHEDULED EXAMINATION TIME** to request permission to write a Special Final Examination. If no one is available in the Undergraduate Services Office, leave a message clearly stating your name & student number.
2. Be prepared to provide the Undergraduate Services Office with supporting documentation (see next page for information on documentation) the next day, or as soon as possible (in cases where students are hospitalized). The following circumstances are not considered grounds for missing a final examination or requesting special examinations: common cold, headache, sleeping in, misreading timetable and travel arrangements.
3. In order to receive permission to write a Special Examination, you must obtain the approval of the Chair of the Department **and** the Associate Dean and in order to apply you must sign a "Recommendation for a Special Examination Form" available in the Undergraduate Services Office. The Undergraduate Services Office will then notify the course instructor(s) and reschedule the examination on your behalf.

PLEASE NOTE: It is the student's responsibility to check the date, time and location of the Special Examination.

D. LATE ASSIGNMENTS

1. Advise the instructor if you are having problems completing the assignment on time (**prior** to the due date of the assignment).
2. Be prepared to provide documentation if requested by the instructor (see reverse side for information on documentation).
3. If you are granted an extension, establish a due date. The approval of the Chair of your Department (or the Assistant Dean, First Year Studies, if you are in first year) is not required if assignments will be completed prior to the last day of classes.
4.
 - i) Extensions beyond the end of classes must have the consent of the instructor, the department Chair and the Associate Dean, Undergraduate Studies. Documentation is mandatory.
 - ii) A Recommendation of Incomplete Form must be filled out indicating the work to be completed and the date by which it is due. This form must be signed by the student, the instructor, the department Chair and the Associate Dean, Undergraduate Studies.

E. SHORT ABSENCES

If you miss a class due to a minor illness or other problem, check your course outlines for information regarding attendance requirements and make sure you are not missing a test, laboratory or assignment. Cover any readings and arrange to borrow notes from a classmate.

F. EXTENDED ABSENCES

If you are absent more than one week or if you get too far behind to catch up, you should consider reducing your workload by dropping one or more courses. (Note drop deadlines listed below). You are strongly encouraged to seek advice from your Academic Counsellor in the Undergraduate Services Office.

G. DOCUMENTATION

If you consulted an off-campus doctor or Student Health Services regarding your illness or personal problem, **you must provide the doctor with a Student Medical Certificate** to complete at the time of your visit and then bring it to the Department (or the Undergraduate Services Office). **This note must contain the following information: severity of illness, effect on academic studies and duration of absence. Regular doctor's notes will not be accepted; only the Student Medical Certificate will be accepted.**

In Case of Serious Illness of a Family Member: Provide a Student Medical Certificate to your family member's physician to complete and bring it to the Department (or the Undergraduate Services Office if you are in first year).

In Case of a Death: Obtain a copy of the death certificate or the notice provided by the funeral director's office. You must include your relationship to the deceased and bring it to the Department (or the Undergraduate Services Office if you are in first year).

For Other Extenuating Circumstances: If you are not sure what documentation to provide, ask the Departmental Office (or the Undergraduate Services Office if you are in first year) for direction.

Note: Forged notes and certificates will be dealt with severely. To submit a forged document is a scholastic offence (see below).

H. ACADEMIC CONCERNS

1. You need to know if your instructors have a policy on late penalties, missed tests, etc. This information may be included on the course outlines. If not, ask your instructor(s).
2. **You should also be aware of attendance requirements in some courses. You can be debarred from writing the final examination if your attendance is not satisfactory.**
3. If you are in academic difficulty, check out the minimum requirements for progression in the calendar. If in doubt, see your Academic Counsellor.

Note: These instructions apply to all students registered in the Faculty of Engineering regardless of whether the courses are offered by the Faculty of Engineering or other faculties in the University.

Add Deadlines:

First term half course (i.e. "A" or "F")	September 16, 2021
Full courses and full-year half course (i.e. "E", "Y" or no suffix)	September 16, 2021
Second term half course (i.e. "B" or "G")	January 11, 2022

Drop Deadlines:

First term half course (i.e. "A" or "F")	November 12, 2021
Full courses and full-year half courses (i.e. "E", "Y" or no suffix)	November 30, 2021
Second term half or second term full course (i.e. "B" or "G")	March 7, 2022
