

Western

Western University/*FIRST* Engineering Scholarship (Faculty of Engineering)

The Western University/*FIRST* Engineering Scholarship is awarded annually to a student entering full-time undergraduate studies in the Faculty of Engineering who has participated in the *FIRST* Robotics Competition Team (FRC) in high school.

This award is available to students in their final year of high school, who have been active on a *FIRST* Robotics Competition team (FRC) who are applying to Engineering at Western University. Applicants do not need to be Canadian citizens.

The scholarship will be awarded through the regular admissions process to the Faculty of Engineering at Western University. The candidate must meet the admissions requirements to Engineering at Western and must submit a one page statement to the Faculty of Engineering by April 30 outlining their participation and role on a *FIRST* Robotics team including how the experience was formative in inspiring them to pursue an engineering education. A reference letter from a teacher or another adult involved with the *FIRST* team may accompany the application.

Representatives involved with the Robotics Engineering competition in the Faculty of Engineering will select the recipient. This award is supported through the Faculty of Engineering.

Value: 1 at \$3,000

Name: _____

Address: _____

City: _____ **Prov:** _____

Postal Code: _____ **Phone:** _____

Western Engineering

The Faculty of Engineering at Western University is dedicated to providing you with opportunities to individualize your engineering education. We offer unique learning opportunities to help you succeed in the career path of your choice. You can build your future at Western with co-curricular and experiential learning opportunities, including:

- Combined Degrees
- Certificates
- Co-ops and Experiential Learning
- International Experiences
- Leadership Opportunities

Learn more at www.eng.uwo.ca

When you start your academic journey with us you will join a cohort of approximately 650 first-year students. Our average classes consist of 100- 150 students, which means you will be surrounded by other like-minded classmates, in a small class environment.

Professors will know your name and academic counselors are available to help you navigate and succeed throughout your university experience. We also offer Peer-to-Peer Academic Support through our Super Tutor Program and the Women in Engineering Big Sister/Little Sister program.

Our current students are very actively engaged in the Western community. Every year, more than 400 students participate in various student clubs, groups and teams including: [Women in Engineering](#); [Aero Design](#); [Western Formula Racing](#); [Western Engineering Rocketry Club](#) and [WEMars](#) to name a few.
