

# Documenting your Learning using Critical Reflections

## Ability to Design and Create

- What problem did you tackle?
- What were your approach and strategies in developing a solution?
- What obstacles did you encounter?

## Commitment to community, multiculturalism and diversity

- Describe a situation where you engaged in active listening with stakeholders.
- Think about a time when you learned about a new culture.
- Comment on the impact you had on a community.
- Explain if you have faced challenges due to cultural differences in a group or community setting.

## Engagement with Sustainability

- How have you incorporated social, environmental and financial sustainability in your actions?
- How have you applied your business knowledge in a real-world setting?
- What has influenced your views on environmental stewardship?
